AIR QUALITY
PROGRAM

Dear Sir:

I am writing to let you know I oppose the Hyperion refinery being built so close to our home in Vermillion. This southeastern corner of the state already has some of the highest percentages of people with allergy problems. (I am one of them.) We don't need any more pollutants aggravating not only allergies, but also asthma, bronchitis and other lung diseases.

Vermillion is only a few miles from the proposed refinery and we know, and you know, these toxins can travel many miles through the air.

Thank you for extending the comment period and for considering young and old alike.

Sincerely,
Delores A. Jorgensen
