S. D. DENR:

My husband and I happen to be among the unfortunate people who live in Union County, S.D. less than 3 miles from where the Hyperion refinery would be built and we know only too well how its great pollution will affect our lives. Both of us have a problem with respiratory conditions as it is and the presence of the bad air, prisms, chemicals that it will create would make it impossible to live here. What a shame to have something like this happen to ruin our lives so please tell Hyperion they're not welcome in our area and go elsewhere.

Sincerely,

Florence Williams
Spink Township, Union County S.D.
