AIR QUALITY
PROGRAM

To Whom It May Concern:

I am writing this letter with concerns regarding an Environmental Impact Statement for the proposed Hyperion Oil Refinery. I am concerned about the odor emissions. Those of us living so closely to the proposed site have many concerns such as noise pollution, light pollution, concerns about water drainage, and clean water to drink. I also have concerns about the impacts of all the pipelines, railroads, county roads and highways.

All of these concerns will have a tremendous impact on my way of life. I believe my concerns should be considered and addressed. An Environmental Impact Statement, at Hyperion's expense, seems to be a reasonable and fair request. An industry of this size and magnitude will surely change our county forever.

I am requesting that under the South Dakota law, an Environmental Impact Statement be done by a third party, with the final Air Permit delayed until after the processing of the Environmental Impact Statement.

If time permits, I may have additional comments and will forward such to you as I more fully understand the draft permit.

Sincerely,

Barbara Anderson
