RE: Application for a Large Scale Mine Permit by Powertech

Dear Mr. Cepak:

As I mentioned in our good telephone conversation some days ago, I am requesting again that a contested case be initiated in the above matter and that I be admitted as an intervenor in the above application.

I am concerned about this application because I am interested in water quality, land use, wildlife, health, and the economy in western South Dakota. I oppose this application because I believe the proposed mine would harm public health, the economy, and the environment, including impacts to the Inyan Kara, Minnelusa, Madison, and Deadwood formations and the Cheyenne River. I also believe this is an inappropriate land use.

I oppose the proposed project at every point and want the permit application to be denied based on the science proving the danger of any approval allowing the mining to go forth.

Please keep me informed of all proceedings and documents related to this application.

Thank you.

Sincerely,

Signature: Gardner Bradlee Gray _____
