Subject: Atten: Mike Cepak: powertech

Dear Mr. Cepak,

I am writing regarding the applications of Powertech for large scale mine permits: I am opposed to the proposed project and want the permit application denied. You know, as we all do... water, land, wildlife, health are vital to the quality of life in South Dakota. Powertech permits are contraindicated to ANY common sense. Please, please, deny their entry.

You may receive pressure regarding "job creation" = growth=healthy economy. Powertech (as any company will do) will employ so few locals as they will want to 'hit the ground running'. They will bring their own, trained personnel. They will relocate, tear into the land, take what they want, and leave.

Thank-you.

Sincerely,

Patricia Braun
