Re: Correspondence with original signatures.

Dear Eric,

I have enclosed correspondence relative to the Expansion Permit. The enclosed correspondence includes the following:

- DOT e-mail correspondence relative to seed mix.
- BLM correspondence relative to seed mix.
- Lawrence Conservation District correspondence relative to the soil survey that includes a letter acknowledging receipt and a proof of submission document indicating consultation signed by the Board Chairman.
- A letter from the Director of the Lawrence County Planning and Zoning Department indicating approval for the County Conditional use permit and describing the current zoning for the land within the CUP permit boundary.
- Proof of submission documents for Wharf Resource's Mine permit Application for the Expansion Project, Revision 1 from Lawrence County Register of Deeds and the U.S. Bureau of Land Management.
- Proof of submission documents from the South Dakota State historical Society for the Wharf Resource's Mine permit Application for the Expansion Project and for the Determination of Special, Exceptional, Critical, or unique lands and Notice of Intent to Operate.

Please let me know if you have any questions,

Sincerely,

A handwritten signature in blue ink, appearing to read "Ronald A. Waterland".

Lead, SD 57754

Dear Mr. Waterland:

This is in response to your letter of April 8, 2011. Due to the limited area of BLM surface lands on these claims, the reclamation seed mix that you have proposed for both the nurse crop and the reclamation species is acceptable.

Any surface disturbing actions would need to be reviewed by the South Dakota Field Office regarding conformance with the South Dakota Resource Management Plan and federal mining law requirements.

Sincerely,

Marian Atkins
South Dakota Field Manager
Bureau of Land Management

Subject: SEED MIXTURE FOR RECLAMATION PROJECT

Gary,

Karen Olson asked me to take a look at the seed mixture that Ron Waterland of Wharf Resources sent to you for use on a reclamation project on SD Highway 473. The seed mixture is similar to what we have seen for other reclamation projects of this type and is allowable for this project also.
