**RIGHTS OF SURFACE OWNERS AFFECTED BY OIL & GAS OPERATIONS**  
(Taken from SD Codified Law Chapter 45-5A)

**45-5A-4. Compensation to surface owner for losses—Determining damages--Payment.** The mineral developer shall pay the surface owner a sum of money equal to the amount of damages sustained by the surface owner for loss of agricultural production, lost land value, and lost value of improvements caused by mineral development. The amount of damages may be determined by any formula mutually agreeable between the surface owner and the mineral developer. In determining damages, consideration shall be given to the period of time during which the loss occurs and the surface owner may elect to be paid damages in annual installments over a period of time. However, the surface owner shall be compensated for harm caused by exploration only by a single sum payment. The payments contemplated by this section shall only cover land directly affected by mineral development. Payments under this section for lost land value shall be paid only to the title holder of such land. Any reservation or assignment of such compensation apart from the surface estate except to a lessee of the surface estate is prohibited.

**45-5A-5. Notice to surface owner of proposed development and rights under chapter.** The mineral developer shall give the surface owner written notice of proposed surface disturbing mineral development activities at least thirty days before the date operations are commenced. Surface disturbing activities include well site construction, road building, grading, excavation, demolition, and related activities. This notice shall be given to the record surface owner at the surface owner's address as shown by the records of the county register of deeds at the time the notice is given. This notice shall sufficiently disclose the plan of work and operations to enable the surface owner to evaluate the effect of drilling operations on the surface owner's use of the property. Included with this notice shall be a form prepared by the Department of Environment and Natural Resources advising the surface owner of his or her rights and options under this chapter.

**45-5A-6. Responsibilities of developer.** The mineral developer is responsible for all damages to property, real or personal, resulting from the lack of ordinary care by the mineral developer. The mineral developer is also responsible for all damages to property, real or personal, resulting from an interference caused by mineral development.

**45-5A-7. Time for notice of damages to developer.** The affected surface owner, to receive compensation, pursuant to §§ 45-5A-8 and 45-5A-9, shall notify the mineral developer, in writing, of the damages sustained by the affected surface owner within two years after the injury becomes apparent or should have become apparent to a reasonable person.

**45-5A-8. Offer of settlement by developer.** Unless both parties provide otherwise by written agreement, within sixty days after the mineral developer receives notice of damages the mineral developer shall make a written offer of settlement to the person seeking compensation for the damages. The person seeking compensation may accept or reject any offer so made within sixty days of receipt.

**45-5A-9. Action for compensation.** If the person seeking compensation receives a written rejection, rejects the offer of the mineral developer, or receives no reply, that person may bring an action for compensation in the court of proper jurisdiction.

**45-5A-10. Other remedies not precluded.** Any remedy provided by this chapter does not preclude any person from seeking other remedies allowed by law.
