

Well Pump Installer License Renewal Instructions

South Dakota Water Law requires every well pump installer to have a well pump installers license before doing or contracting for any well repair or pump installation work. Enclosed is an application form to renew your License. This form needs to be completed, signed by each license representative, and returned to this office with the fee postmarked on or before January 31. The filing fee is based on the residency of the license representative(s) -- \$200.00 for South Dakota resident(s) and \$300.00 for nonresident(s). You are a resident if your primary residence is located in South Dakota and you have not claimed residency in any other state within ninety days of filing this application.

The application form must be returned and a license issued before doing any well repair or pump installation work during the year for which you are renewing. Renewals submitted after January 31 of the year for which you wish to renew will be returned, and the applicant will have to comply with the requirements for new applications.

If your company needs to add a new licensed representative, please contact the Water Rights Program for the information and forms.

If you have questions, please contact the Water Rights Program at (605) 773-3352.
