MISSION

The mission of the South Dakota Drinking Water State Revolving Fund loan program is to capitalize the fund to the fullest; ensure that the state's drinking water systems remain safe and affordable; protect public health; and promote the economic well-being of the citizens of the state of South Dakota.

FEDERAL FISCAL YEAR

2008

ANNUAL REPORT

INTRODUCTION

The State of South Dakota herewith submits its Annual Report for Federal Fiscal Year (FFY) 2008 (October 1, 2007 through September 30, 2008). This report describes how South Dakota has met the goals and objectives of the Drinking Water State Revolving Fund (SRF) Loan program as identified in the 2008 Intended Use Plan, the actual use of funds, and the financial position of the Drinking Water SRF.

The Annual Report consists of three main sections. The *Executive Summary* section provides an overview of the Drinking Water SRF program and the FFY 2008 activities. The next section addresses the *Goals and Environmental Results* the State of South Dakota identified in its 2008 Intended Use Plan and the steps that have been taken to meet these measures. The *Details of Activities* section provides information on the financial status of the program, the financial assistance provided during FFY 2008 and compliance with the EPA grant and operating agreement conditions.

The Annual Report is followed by a brief history of the Drinking Water SRF program. The Program History is followed by the *Drinking Water SRF Loan Portfolio*. The loan portfolio provides information on the interest rates, loan amounts, projects, and loan terms. Exhibits I through VIII provide detailed financial and environmental program information. Exhibits IX through XI are the unaudited financial statements of the Drinking Water SRF program prepared by the Department of Environment and Natural Resources. Finally, Addendum A is the *Intended Use Plan for Federal Fiscal Year 2009*. The primary purpose of the Intended Use Plan is to outline the proposed use of the funds available to the Drinking Water SRF program.

EXECUTIVE SUMMARY

The South Dakota Drinking Water SRF program received a federal capitalization grant of \$8,146,000 for FFY 2008. These funds were matched by \$1,629,200 in state-issued revenue bonds and were supplemented by accumulated loan repayments, leveraged bonds, and interest earnings.

DRINKING WATER SRF LOANS

The Conservancy District approved twelve loans to ten entities totaling \$51,526,075. A breakdown of the loans made during FFY 2008 is detailed in Table 1.

**Table 1
Drinking Water Loans
Federal Fiscal Year 2008**

<u>Recipient</u>	<u>Project Description</u>	<u>Assistance Amount</u>	<u>Rate/Term</u>
Black Hawk WUD (DW-02)	Water Reservoir & Transmission Line	\$1,142,000	3.25%/20
Chamberlain (DW-01)	Water Plant Renovation & Upgrade	\$276,500	3.25%/20
Delmont (DW-01)	Water Main Improvements	\$185,000	2.50%/30
Elk Point (DW-04)	Clay & Washington Sts. Utility Reconstruction	\$564,000	3.25%/20
Harrisburg (DW-03)	Elevated Water Storage Tower	\$2,090,000	3.25%/20
Miller (DW-01)	Water Meter Replacement	\$255,200	2.50%/10
Mission Hill (DW-01)	Water Tower & Distribution System Looping	\$250,000	3.25%/20
Sioux Falls (DW-06)	Backwash Handling Basin & Filter Improvements	\$17,848,000	2.50%/10
Sioux Falls (DW-07)	Well No. 69 Rehabilitation	\$2,200,000	2.50%/10
Sioux Falls (DW-08)	Water Distribution System Improvements	\$2,705,600	2.50%/10
Viborg (DW-01)	Water Line Replacement & Looping	\$249,775	3.25%/20
Watertown (DW-01)	Water Source, Treatment & Storage Improvements	\$23,760,000	3.25%/20
TOTAL		\$51,526,075	

Disbursements from the program during FFY 2008 totaled \$13,976,395. This total includes loan disbursements of \$13,165,458 to the various loan recipients with the balance going for set-asides purposes. See Exhibit IV for a breakdown of all disbursements during FFY 2008.

Since the program was initiated in 1997, 123 loans have been awarded with five loans subsequently being rescinded or deobligated in full. The projects associated with 95 loans are fully constructed or essentially complete and in operation. The following nine projects initiated operations this past year:

Harrisburg (DW-02)	Lennox (DW-01)
Milbank (DW-01)	Rapid City (DW-01)
Sioux Falls (DW-05)	Tea (DW-01)
Vermillion (DW-03)	Wagner (DW-02)
Waubay (DW-01)	

Drinking Water SRF program forms are provided in the Department of Environment and Natural Resources' State Water Planning Process document. This document contains application forms and instructions for the State Water Plan and various funding programs. A drinking water

project self-assessment was incorporated into the State Water Plan application to facilitate the project priority determination process. All forms are also available from the department's website at www.state.sd.us/denr/dfta/wwfunding/wwfprg.htm.

The Drinking Water SRF loan application incorporates the Capacity Assessment Worksheets for Public Water Systems. The Safe Drinking Water Act requires that a public water system applying for a Drinking Water SRF loan must demonstrate that it has the financial, managerial, and technical capacity to operate its system in full compliance with the Act.

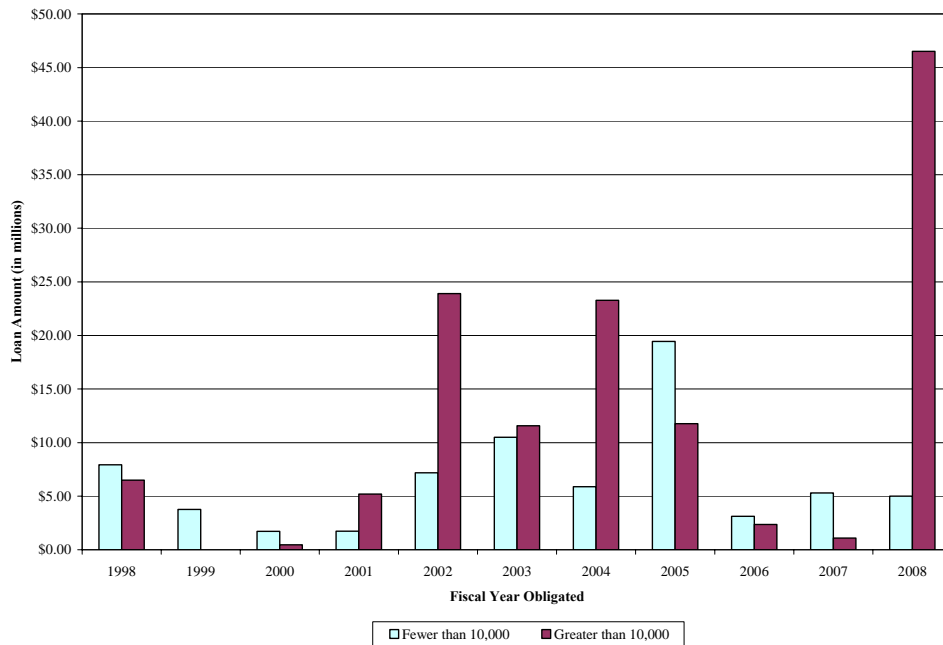

REPAYMENTS

Ninety-one loans are currently in repayment, and eight loans have been repaid in full. Repayments equaled \$11,935,606 in FFY 2008 and consisted of \$8,341,486 in principal, \$2,805,345 in interest, and \$898,775 in administrative surcharge fees.

ASSISTANCE TO SMALL SYSTEMS

A requirement of the Drinking Water SRF program is that the State use at least 15 percent of all dollars credited to the fund to provide loan assistance to small systems that serve fewer than 10,000 persons. In FFY 2008, \$5,012,475 or 9.7 percent of the binding commitments were made to systems serving less than 10,000. Since the Drinking Water SRF program was initiated, systems serving a population of 10,000 people or fewer have received \$71,556,536 in loan assistance. Of the total funds available to loan, this represents 35.0 percent. Figure 1 shows loans awarded to small systems for FFY 1998 through 2008.

**FIGURE 1
Drinking Water SRF Loan Amounts
by Service Population by Year**

BYPASSED PROJECTS

Table 2 identifies the higher ranked projects on the FFY 2008 priority list that did not receive an SRF loan. The projects listed on Table 2 were bypassed because they were not ready to proceed or had secured other financing. No projects with higher priority points were denied funding in FFY 2008.

Table 2
Status of High Priority Projects Bypassed in 2008

Rank/ Priority Points	Community/ Public Water System	Reason for Bypassing
2/154	New Underwood	The project is still in the planning stage.
3/135	Hanson Rural Water System	The project was awarded a state grant in September 2007 and has received additional funding from Rural Development to complete the funding.
4/132	Clark Rural Water System	The project is still in the planning stage.
5/129	Edgemont	The project was awarded a state grant in June 2006 to install water meters and will proceed with further improvements in the future.
6/122	BDM Rural Water System	The project was awarded a state grant in September 2005 and has received additional funding from Rural Development to complete the funding.
7/118	B-Y Rural Water User District	The project was awarded a state grant in March 2008, which the district later returned citing other projects with higher priority.
9/93	Fall River Water Users District	The project was awarded a state grant in March 2006 and has received additional funding from Rural Development to complete the funding.
10/93	Kingbrook Rural Water System	The project is still in the planning stage.
11/92	Morristown	The project has been awarded a Community Development Block Grant and has applied to Rural Development for the additional funding needed to complete the project.
12/81	Aurora-Brule Rural Water System	The project is seeking funding through Rural Development.
13/77	Spearfish Meadows Homeowners Association	The project is still in the planning stage.
15/58	Green Valley Sanitary District	The project is still in the planning stage.

INTEREST RATES

Interest rates are reviewed periodically to ensure that they are below market rate and are competitive with other funding sources, such as the federal Rural Development program. The SRF base rates during FFY 2008 were 2.50 percent for loans with a term of 10 years or less and 3.25 percent for loans with a term greater than 10 years up to a maximum of 20 years. The term

of each loan is at the discretion of the borrower provided that the proposed repayment source produces the required debt service coverage and the term of the loan does not exceed the useful life of the project.

Communities that meet the disadvantaged community criteria may receive a Drinking Water SRF loan at an interest rate below that for other recipients. Additionally, the maximum allowable repayment period for disadvantaged communities can be extended to 30 years. Disadvantaged communities qualify for 3.25 percent loans for 30 years if their median household income (MHI) is 80 percent to 100 percent of the statewide MHI. Municipalities, other community water systems, and sanitary districts must have an MHI below 80 percent of the statewide MHI to be eligible for an interest rate of 2.5 percent, and an MHI less than 60 percent of the statewide MHI to be eligible for a loan at zero percent interest. Residential water bills must be at least \$20 for 5,000 gallons usage for municipalities and sanitary districts and \$50 for 7,000 gallons usage for other community water systems.

BOND ISSUE

The South Dakota Conservancy District closed its Series 2008 bond issue for the State Revolving Fund programs in March 2008. This was a multi-modal variable rate issue, which was a first for the District. The 2008 bond issue was rated AAA/A-1+ by Standard and Poor's and Aaa/VMIG by Moody's. These ratings are the highest long-term and short-term ratings, respectively, assigned by each agency. These ratings were based on the programs' strength and did not involve bond insurance. The par amount of the tax-exempt revenue bonds issued in March 2008 was \$40,000,000. The bonds were originally set with a semi-annual rate mode, which can be changed at the discretion of the Conservancy District. The initial interest rate was 2.35% effective until August 1, 2008. The Conservancy District chose to retain the semi-annual rate mode, and the new interest rate was 1.90 percent effective until February 1, 2009.

The purpose of the bond issue was to provide State Match and Leveraged Loan funds for both the Clean Water and Drinking Water programs. The Clean Water program utilized \$1.89 million of proceeds for 2008-2010 match and \$19.8 million for leveraged loans. The remaining proceeds provided \$4.89 million for 2008-2010 Drinking Water match and \$13.0 million for leveraged Drinking Water loans.

The issuance of variable rate bonds was to address impacts of the federal Tax Increase Prevention and Reconciliation Act (TIPRA) of 2005. Of particular concern is the requirement that 30 percent of net bond proceeds be spent within one year and 95 percent of net bond proceeds be spent within three years of the date of issue. If these objectives are not met, bonds must be redeemed in an amount necessary to meet the spend-down requirement. The district, working with its financial advisor, Public Financial Management, and bond counsel, Perkins Coie LLP, investigated several options for managing the TIPRA spend-down redemption requirements. The use of variable rate bonds was determined to be the most favorable approach.

The financial team for the 2008 bond issue included The First National Bank in Sioux Falls as trustee, Perkins Coie LLP as bond counsel, Public Financial Management as financial advisor, Wachovia Bank, National Association as senior underwriter and remarketing agent, and

U.S. Bank, National Association as Liquidity Provider. The Trustee, Bond Counsel, and Financial Advisor provide professional financial services to the board and department on an on-going basis.

In conjunction with the bond issue, a Guaranteed Investment Contract (GIC) was awarded to MBIA Investment Management Corp. The award was based on the most favorable spread to the one-month LIBOR (London Interbank Offered Rate) index. The bid from MBIA was LIBOR + 30 basis points. After the agreement was executed, MBIA was downgraded by Moody's Investor Services from Aaa to A2, which is below the allowable rating provided in the agreement. Not only did the downgrade affect the most recent GIC with MBIA, but it also affected a GIC with MBIA that was executed in 1996. The SRF financial team has worked with MBIA to provide a remedy pursuant to the terms of each GIC agreement. The 1996 and 2008 GICs were collateralized with securities issued or guaranteed by U.S. government agencies or the Government National Mortgage Association.

DRINKING WATER SRF NON-PROJECT ACTIVITIES (SET-ASIDES)

The Safe Drinking Water Act authorizes states to set aside funding for certain non-project activities, provided that the amount of that funding does not exceed certain ceilings. Unused set-aside funds are banked for future use, where allowable, or transferred to the project loan account at the discretion of the state and with concurrence from the EPA Regional Administrator. Exhibit IV details the FFY 2008 Drinking Water disbursements. Table 3 recaps the cumulative Drinking Water SRF set-aside status.

**Table 3
Drinking Water SRF Set-Aside Status**

Set-Aside	Allotment 1997-2007	Allotment 2008	Transfer to Loan Fund	Obligated as of 9/30/08	Balance
Administration	\$3,671,740	325,840	\$ 0	\$3,374,977	\$ 622,603
Small System Tech Assistance	1,221,988	162,920	0	1,359,690	25,218
State Program Mgmt	20,000	0	15,700	4,300	0
Local Assistance/ Other	1,505,880	0	1,284,674	221,206	0
TOTAL	\$6,419,608	\$488,760	\$1,300,374	\$4,960,173	\$647,821

▪ **Administration**

Four percent of the 2008 capitalization grant (\$325,840) was allocated to administer the Drinking Water SRF program. Specific activities funded from this set-aside include the following:

- Staff salaries
- Travel
- Bond counsel
- Benefits
- Overhead
- Trustee expenses
- Other administrative costs

During FFY 2008, \$345,720 was disbursed for administrative expenses.

- **Small System Technical Assistance**

The Drinking Water SRF program continues to provide technical assistance to public water systems serving 10,000 people or fewer through the Small System Technical Assistance Set-Aside. The objectives of this funding are to bring non-complying systems into compliance, to improve operations of water systems, and to facilitate completion of small systems' capacity assessments and ultimate access to the Drinking Water SRF program.

The Small Community Planning Grant program was initiated in 2001 to encourage proactive planning by small communities. Grants are available to communities of 2,500 or fewer to assist in preparing a water system engineering study. Participating systems are reimbursed 80 percent of the cost of the study, up to a maximum of \$6,000. Additional grants for studies incorporating a rate analysis using Rate Maker software are also available through this program. Reimbursement for performing a rate analysis is 80 percent of costs up to a maximum of \$1,600. Table 4 provides a list of the small community public water systems that received awards in 2008 through the Small Community Planning Grant program.

The South Dakota Association of Rural Water Systems continues to provide on-site assistance such as leak detection, consumer confidence reports, water audits, board training, treatment plant operations, operator certification, and rate analysis. Through FFY 2008, the Association has provided nearly 11,113 hours of on-site small system technical assistance.

In 2008, the Midwest Assistance Program (MAP) began conducting follow-up reviews for small communities that received a Drinking Water SRF loan and for which recommendations were made in the capacity assessment to improve the technical, financial, or managerial capacity of the system. Ten follow-up reviews were completed in FFY 2008.

To assure continued technical assistance for South Dakota communities, the maximum allowable allocation of two percent of the capitalization grant was set aside in FFY 2008. This amounted to \$162,920 and is intended to be used for planning grants and technical assistance activities as needed.

**Table 4
Small System Technical Assistance
Drinking Water Engineering and Rate Analysis
FFY 2008**

<u>Sponsor</u>	<u>Project Description</u>	<u>Amount Obligated</u>
Alcester	Drinking Water Rate Analysis	\$1,600
Clark	Drinking Water Engineering Study	\$6,000
Colman	Drinking Water Engineering Study	\$6,000
Corson Village San Dist	Drinking Water Rate Analysis	\$1,600
Deadwood	Drinking Water Rate Analysis	\$1,600
Eureka	Drinking Water Engineering Study	\$6,000
Hughes County	Drinking Water Engineering Study	\$3,040
Lake Andes	Drinking Water Engineering Study	\$6,000

Marion	Drinking Water Rate Analysis	\$1,600
Mina Lake San Dist	Drinking Water Engineering Study	\$6,000
New Underwood	Drinking Water Engineering Study	\$6,000
Northville	Drinking Water Engineering Study	\$6,000
Oacoma	Drinking Water Engineering Study	\$6,000
Piedmont	Drinking Water Engineering Study	\$6,000
Roslyn	Drinking Water Engineering Study	\$3,000
TOTAL		\$72,440

- **State Program Management**

This set-aside was not utilized in FFY 2008.

- **Local Assistance and other state programs**

In FFY 2006, \$200,000 was awarded to West Dakota Water Development District (WDD) to conduct a two-year study to characterize the impacts to groundwater of decentralized wastewater treatment systems in the Rapid City area. In FFY 2008, the grant was fully disbursed.

ADMINISTRATIVE SURCHARGE

In FFY 2005, the Board established a program to provide administrative surcharge funds to planning districts to defray the cost of application preparation and on-going project administration activities. The planning districts may receive up to \$7,500 per loan for application and project administration duties. The planning districts assisted nine systems with eleven Drinking Water SRF applications in FFY 2008, and disbursements totaled \$77,500.

GOALS AND ENVIRONMENTAL RESULTS

The following goals were developed for the FFY 2008 Intended Use Plan. The short-term goals support the implementation of the program's long-term goals. The long-term goals provide a framework that guides management decisions for the Drinking Water SRF program.

SHORT-TERM GOAL

GOAL: To fully capitalize the fund.

As of September 30, 2008, South Dakota has provided loans totaling \$204,220,098. At the end of the year, South Dakota has made binding commitments to fully utilize all of its capitalization awards and associated state matching funds.

LONG-TERM GOALS

GOAL: To fully capitalize the fund.

The state has received and obligated each capitalization grant in the required time period and has had state match moneys available for each capitalization grant. As of September 30, 2008, South Dakota has made binding commitments to fully utilize all of its capitalization awards and associated state matching funds.

GOAL: To ensure that the state's drinking water supplies remain safe and affordable, to ensure that the systems are operated and maintained, and to promote economic well-being.

The state has awarded 123 loans to 80 entities to assist with construction or refinancing of drinking water projects. Since the Drinking Water SRF program began in 1997, the state has set aside \$1,384,908 to be used to provide technical assistance to public water systems serving 10,000 people or less. Additionally, \$221,206 has been set aside for capacity development and \$4,300 for supplemental operator training.

ENVIRONMENTAL RESULTS

Effective January 1, 2005, EPA required states to establish program activity measures (outcomes) in its Intended Use Plan to receive the federal capitalization grant. Progress related to these measures is to be reported in the annual report. The specific measures and the results are as follows:

- 1. In fiscal year 2007, the fund utilization rate, as measured by the percentage of executed loans to funds available, was 87.1 percent, which is slightly below the national average of 88 percent. For fiscal year 2008, the goal of the Drinking Water SRF program is to maintain the fund utilization rate at or above 90 percent.**

As of September 30, 2008, the state had made loans totaling \$204,220,098. The amount of funds (capitalization grants, state match, leveraged bonds, repayments, and interest earnings) totaled \$206,526,176. This results in a fund utilization rate of 98.9 percent.

2. **In fiscal year 2007, the rate at which projects progressed as measured by disbursements as a percent of assistance provided was 86.8 percent. For fiscal year 2008, the goal is to maintain the construction pace at or above 80 percent.**

As of September 30, 2008, \$146,310,823 had been disbursed to loan recipients and loans totaling \$204,220,098 had been awarded. This results in a construction pace of 71.6 percent.

3. **For fiscal year 2008, the goal of the Drinking Water SRF program is to fund 16 loans, totaling \$51 million.**

In fiscal year 2008, twelve loans totaling \$51,526,075 were awarded.

4. **For fiscal year 2008, it is estimated that 16 projects will initiate operations.**

Nine projects initiated operation in fiscal year 2008.

5. **For fiscal year 2008, it is estimated that 10 Small Community Planning Grants will be awarded to small systems to evaluate the system's infrastructure needs.**

In fiscal year 2008, twelve Small Community Planning Grants were awarded to small systems to evaluate infrastructure needs.

6. **For fiscal year 2008, it is estimated that the South Dakota Association of Rural Water Systems will provide 1,200 hours of technical assistance to small systems.**

The South Dakota Association of Rural Water Systems provided 1,653 hours of technical assistance to small systems in fiscal year 2008.

DETAILS OF ACTIVITIES

FUND FINANCIAL STATUS

Binding Commitments: In order to provide financial assistance for drinking water projects, the state entered into twelve binding commitments totaling \$51,526,075. Exhibit I details the Drinking Water SRF binding commitments made during FFY 2008. Figure 2 shows binding commitments by year since the inception of the program.

Sources of Funds: During FFY 2008, the state was awarded a federal capitalization grant totaling \$8,146,000 that was matched by \$1,629,200 in bond proceeds. Exhibit III and Figure 3 show the annual capitalization grant allocation, the required state match, and leveraged funds.

In FFY 2008, borrower principal repayments amounted to \$8,231,486. As of September 30, 2008, \$1,205,075 remains available for obligation.

The interest repaid by loan borrowers, as well as interest earned on investments, is dedicated to make semiannual state match bond payments. Any excess interest is available for loans. In FFY 2008, \$2,760,445 of interest earnings were transferred to the unrestricted cumulative excess account and became available to loan. As of September 30, 2008, \$1,898,810 was available for obligation from the unrestricted cumulative excess accounts.

Revenues and Expenses: Fund revenues consisted of capitalization grants, administrative expense surcharge payments, and interest earned on loans, investments, and the special reserve account. These revenues totaled \$11,551,765.99. Fund expenses included administration expenditures, interest payable on bonds, and the amortization of each bond's issuance costs. These expenses totaled \$2,855,754.31. Additionally, \$24,761.28 was transferred out to the DENR indirect cost pool. The Statement of Income and Retained Earnings is shown on Exhibit X.

Disbursements and Guarantees: There were no loan guarantees during FFY 2008.

Findings and Recommendations of the Annual Audit and EPA Oversight Review: The Drinking Water SRF program was audited by the South Dakota Department of Legislative Audit for state fiscal year 2007 (July 1, 2006, through June 30, 2007), and the audit report was issued on January 31, 2008. The audit did not contain any written findings or recommendations.

Region VIII conducted its annual oversight review of the South Dakota Drinking Water SRF program. A final report was received in June 2008, and the following recommendations were made:

1. *Amending state rule 74:05:11:06 to ensure consistency with 40 CFR §35.3520(a)(2)(vi).*

This finding will be addressed through amendments to the Administrative Rules for the Drinking Water State Revolving Fund program.

2. *Including in the Intended Use Plan the State's method used to determine the market rate and the interest rate (ref: 40 CFR §35.3555(c)(3)(v)).*

This finding will be addressed by the Board of Water and Natural Resources in the FFY 2009 Intended Use Plan.

PROVISIONS OF THE OPERATING AGREEMENT/CONDITIONS OF THE GRANT

The state of South Dakota agreed to 22 conditions in the Operating Agreement and Capitalization Grant Agreement. The following 21 conditions have been met and need no further description:

1. Enact legislation to establish Drinking Water SRF
2. Comply with all applicable state statutes and regulations
3. Allocate adequate personnel and resources to Drinking Water SRF program
4. Agreement to accept payments
5. Cash draws for Drinking Water SRF program separate
6. Provide state match
7. Deposit of all funds into Drinking Water SRF account
8. Establish fiscal controls and accounting procedures in accordance with Generally Accepted Accounting Principles
9. Annual audit
10. Loan covenants
11. Timely and expeditious use of funds

12. Project priority list additions and modifications
13. Annual revision of the intended use plan
14. Reports on the actual use of funds
15. Conduct environmental reviews
16. Set-asides will be identified each year
17. Compliance with specific Title I requirements
 - A. Authority to ensure new systems demonstrate technical, managerial, and financial capability
 - B. Funds provided only to systems with technical, managerial, and financial capability
 - C. Operator certification
18. Privately-owned systems may receive funding
19. Disadvantaged communities
20. Transfers between Clean Water SRF Program and Drinking Water SRF Program
21. Prior to executing binding commitments on Drinking Water SRF projects, the Regional Administrator must certify project compliance with Title VI of the Civil Rights Act. All loan recipients submitted project certification forms (EPA 4700-4) to DENR, but the department was notified in FY 2003 that it need no longer submit these forms to EPA for concurrence.

The following condition is described in detail below.

1. Compliance with all applicable federal cross-cutting authorities, including the establishment of Minority Business Enterprise (MBE)/Women's Business enterprise (WBE) goals and submission of MBE/WBE Utilization reports.

The state and EPA have agreed on "fair share" goals of 1 percent MBE and 3 percent WBE. The actual MBE/WBE participation achieved during FFY 2008 was 0.18 percent MBE and 0.48 percent WBE.

2009 INTENDED USE PLAN

The Annual Report contains the 2009 Intended Use Plan as approved by the Board of Water and Natural Resources on November 7, 2008, and is shown on page A1.

SOUTH DAKOTA
DRINKING WATER
STATE REVOLVING FUND
LOAN PROGRAM HISTORY

INITIATION OF THE PROGRAM

The Drinking Water State Revolving Fund (SRF) Loan program is a low interest loan program to finance drinking water projects. Funds are provided to the state in the form of capitalization grants awarded annually through the United States Environmental Protection Agency (EPA). The federal capitalization grants are matched by state funds at a ratio of 5 to 1.

The program was federally authorized by the Safe Drinking Water Act Amendments of 1996. The state authorized the loan program in 1994 in anticipation of federal action. EPA provided the final guidance for the Drinking Water SRF program on February 28, 1997. The South Dakota Conservancy District, acting in its capacity as the Board of Water and Natural Resources (the Board), conducted a public hearing on April 15, 1997, to adopt formal administrative rules for the program.

The Board conducted a public hearing on May 28, 1997, to adopt the 1997 Intended Use Plan. The state of South Dakota submitted an Operating Agreement and Capitalization Grant application for FFY 1997 in August of that year and received EPA approval on September 23, 1997. South Dakota's Drinking Water SRF program was the fourth in the nation to be approved by EPA.

CAPITALIZATION GRANTS

Since 1997, South Dakota's Drinking Water SRF program has received federal capitalization grants totaling \$112,918,100. In order to receive each of the capitalization grants, the federal grant must be matched with state funds equal to at least 20 percent of each grant. To meet this requirement, state appropriations as well as revenue bonds have provided the required \$22,583,620 state matching funds. Exhibit III shows the total amount of capitalization grants and state match by year.

STATE MATCHING FUNDS

The Safe Drinking Water Act amendments allowed states to defer the state match of the 1997 capitalization grant until September 30, 1999. South Dakota deferred its match until program bonds were issued in 1998. For the 1998 capitalization grant, the source of the state match had to be identified at the time of the grant application in December 1997. The 1997 state appropriation of \$1,424,260 was utilized to match the 1998 capitalization grant.

In June 1998, \$6,450,000 in program bonds were issued. This bond issue was insured by Ambac Assurance Corporation and was rated Aaa by Moody's Investors Services, Inc. The Series 1998A bonds were issued to provide \$2,511,760 to match the 1997 federal capitalization grant, \$1,492,760 to match the 1999 federal capitalization grant, and \$1,551,400 to match the 2000 federal capitalization grant. The balance was used to match a portion of the 2001 federal capitalization grant.

The entire program was upgraded to a Aa3 rating by Moody's in June 1998 and to Aa1 in August 2001.

In October 2001, \$5,270,000 in revenue bonds were issued. These funds provided the required state match for 2001, 2002, and 2003 capitalization grants.

Revenue bonds were issued in July 2004. State match bonds for grant years 2004, 2005, and 2006 amounted to \$5,001,620. The 2004 bond issue was rated AAA by Standard and Poor's and Aaa by Moody's.

The South Dakota Conservancy District closed its Series 2005 bond issue for the State Revolving Fund programs in October 2005. The 2005 bond issue was rated AAA by Standard and Poor's and Aaa by Moody's, the highest ratings assigned by each agency. These ratings were based upon the programs' strength and did not involve bond insurance. The par amount of the tax-exempt revenue bonds issued in October 2005 was \$50,000,000. State match bonds were issued for grant year 2007 and amounted to \$1,670,000. The True Interest Cost was 4.36 percent and the Net Interest Cost was 4.47 percent.

The South Dakota Conservancy District closed its Series 2008 bond issue for the State Revolving Fund programs in March 2008. This was a multi-modal variable rate issue, which was a first for the District. The 2008 bond issue was rated AAA/A-1+ by Standard and Poor's and Aaa/VMIG by Moody's. These ratings are the highest long-term and short-term ratings, respectively, assigned by each agency. These ratings were based on the programs' strength and do not involve bond insurance. The par amount of the tax-exempt revenue bonds issued in March 2008 was \$40,000,000. The bonds were originally set with a semi-annual rate mode which can be changed at the discretion of the Conservancy District. The initial interest rate was 2.35% effective until August 1, 2008. The Conservancy District chose to retain the semi-annual rate mode, and the new interest rate was 1.90 percent effective until February 1, 2009. The Drinking Water program utilized \$4,887,600 of proceeds for 2008-2010 match and \$13,000,000 for leveraged loans. The remaining proceeds were allocated to the Clean Water SRF program.

The issuance of variable rate bonds was to address impacts of the federal Tax Increase Prevention and Reconciliation Act (TIPRA) of 2005. Of particular concern is the requirement that 30 percent of net bond proceeds be spent within one year and 95 percent of net bond proceeds be spent within three years of the date of issue. If these objectives are not met, bonds must be redeemed in an amount necessary to meet the spend-down requirement. The district, working with its financial advisor, Public Financial Management, and bond counsel, Perkins Coie LLP, investigated several options for managing the TIPRA spend-down redemption requirements. The use of variable rate bonds was determined to be the most favorable approach.

LEVERAGED PROGRAM BONDS

Leveraged funds issued in July 2004 for new loans amounted to \$22,503,662.

In October 2005, an additional \$14,500,000 of leveraged bonds were issued to provide additional loan funds. Subsequently, \$7,500,000 of leveraged bond proceeds were transferred to the Clean Water SRF program. See Table 5.

In March 2008, the Series 2008 bond issue provided \$13,000,000 in leveraged funds for the Drinking Water SRF program.

TRANSFERS BETWEEN PROGRAMS

In federal fiscal years 2002 and 2003, because of the demand on the Drinking Water program, the Clean Water SRF capitalization grants and state match were transferred to the Drinking Water SRF program (see Table 5). These grants amounted to \$12,978,600, with a corresponding state match of \$2,595,720. In 2006, \$7,500,000 of the Series 2005 Drinking Water bond proceeds were transferred to the Clean Water program to meet demand.

Table 5
Transfers between Clean Water SRF and Drinking Water SRF Programs

From	To	Grant Year	Capitalization Grant	State Match	Lev. Series	Bonds Transferred	Total
Clean Water SRF	Drinking Water SRF	2002	\$6,510,800	\$1,302,160			\$7,182,960
Clean Water SRF	Drinking Water SRF	2003	\$6,467,800	\$1,293,560			\$7,761,360
Drinking Water SRF	Clean Water SRF				2005	\$7,500,000	\$7,500,000

OTHER FUNDS

The Drinking Water SRF program is intended to revolve in perpetuity. As borrowers repay their loans, the principal repayments are used to pay debt serviced on leveraged bonds. Excess repayments are then available to be loaned out to other communities. The first use of principal repayment for a loan was in 1999. The interest repaid by borrowers and investment earnings are dedicated to pay debt service on state match bonds. The excess interest (unrestricted cumulative interest) is then available to be loaned out to other communities. When the federal capitalization grants cease, all loans will be made from these sources. The first loan from unrestricted cumulative excess interest earnings was made in 2008.

TRUSTEE

The First National Bank in Sioux Falls has been the trustee since the onset of the program in 1997. The trustee manages and invests all funds and accounts for the Drinking Water SRF program, issues amortization schedules, disburses loan funds, and receives all loan repayments.

BOND COUNSEL

Alzheimer & Gray served as bond counsel for the Series 1998A and Series 2001 Drinking Water State Revolving Fund Program Bonds. In July 2003, Alzheimer & Gray law firm dissolved, and Perkins Coie LLP was retained to serve as bond counsel.

UNDERWRITER

Piper Jaffray served as underwriter for the Series 1998A Drinking Water State Revolving Fund Program Bonds. Dougherty and Company served as underwriter for the Series 2001 bonds.

UBS Financial Services served as underwriter for the Series 2004 and Series 2005 State Revolving Fund Program Bonds. Wachovia Bank, National Association was selected as underwriter and remarketing agent for the Series 2008 bonds.

FINANCIAL ADVISOR

In September 2003, Public Financial Management (PFM) was retained to perform financial analyses of the SRF programs. PFM designed a comprehensive program cash flow model that assessed financial impacts of transfers between the Clean Water and Drinking Water programs, maintenance of SRF funds in perpetuity, short- and long-term effects of refunding some or all of the District's outstanding debt, financial impacts of leveraging the Drinking Water SRF program, and financial impacts of various methods by which required state matching funds may be provided.

EPA REGION VIII

Region VIII of the Environmental Protection Agency oversees the Drinking Water State Revolving Fund Loan program. EPA assists the state in securing capitalization grants and guides the Conservancy District in its administration of the program.

DRINKING WATER SRF PROJECT DESCRIPTIONS

ABERDEEN – The city of Aberdeen received an \$8,460,000 loan at 3.5 percent for 20 years. This loan was the first installment of the city's \$14,460,000 project to improve the water treatment plant. Total project costs increased to \$18,700,000, and the city received the second installment of its loan in 2004 in the amount of \$8,300,000.

BALTIC – The city of Baltic received a \$250,000 loan for replacement of existing cast iron pipe with PVC water mains. The loan is at 3.5 percent for 20 years.

BDM RURAL WATER SYSTEM – The system received a loan in the amount of \$536,000 for expansion of the system to the city of Britton, SD. The loan is at 3.5 percent for 20 years.

BIG SIOUX COMMUNITY WATER SYSTEM – Big Sioux received a loan in the amount of \$831,000 for clearwell and water storage improvements. The loan is at 3.25 percent for 20 years.

BIG STONE CITY – The city of Big Stone City utilized a \$600,000 loan to construct a 100,000-gallon elevated water storage tank. The project also included the installation of a water main to connect the tank to the existing distribution system, and the refinancing of debt incurred to connect to the Ortonville, Minnesota regional water treatment plant. The 20-year loan is at 5.25 percent. The city received its second loan in the amount of \$240,000 at 3.5 percent for 20 years to fund improvements to the water distribution system.

BLACK HAWK WATER USER DISTRICT – The Black Hawk Water User District received a loan for \$500,000. This loan financed a new well, pump house construction, installation of chlorination and fluoridation equipment, a 48,000-gallon water storage reservoir, and approximately 7,000 feet of new water lines. This loan is at 5.25 percent for 20 years. The second loan, in the amount of \$1,142,000 loan at 3.25 percent for 20 years, financed an 815,000-gallon, ground storage reservoir and a transmission line to improve service to Summerset

BRANDON – Brandon received a loan for \$1,950,000 at 4.75 percent for 15 years. This project consists of constructing a new water treatment plant and upgrading the current distribution system.

BRISTOL – The town of Bristol received a loan in the amount of \$139,000 at 4.5 percent interest for 20 years. The project involves construction of a new elevated storage tank as well as replacement of an underground storage tank. This will allow the town to discontinue renting railroad land where the current low level tank is located and to eliminate its existing pumping station that pressurizes the distribution system.

BRITTON – The city of Britton received a loan in the amount of \$320,000 to replace and make improvements to approximately 30 blocks of water main throughout the city. The project involves replacing 50 year old cast iron pipes, much of which has completely deteriorated due to rust and scale build-up. The loan is at 4.5 percent interest for 20 years.

BROOKINGS-DEUEL RURAL WATER SYSTEM – Brookings-Deuel RWS received two Drinking Water SRF loans in FFY 2005. The first loan, in the amount of \$1,200,000 at 3.25 percent for 30 years, increases the treatment capacity of the Bruce water treatment plant. The second loan, in the amount of \$1,750,000 at 3.25 percent for 30 years, makes improvements to the distribution system and extends water to the community of Astoria.

BRYANT – The city of Bryant received a \$142,000 loan to help replace lead service lines and asbestos cement water mains throughout the city. The loan is at 3 percent interest for a term of 30 years.

BURKE – Burke’s first loan, in the amount of \$115,600 at the disadvantaged rate of 2.5 percent for 30 years, funded the drinking water portion of the Franklin Street Utilities Replacement project.

CANTON -- Canton utilized its first loan in the amount of \$500,000 at 3.5 percent for 20 years to fund utility improvements in conjunction with South Dakota DOT reconstruction of US 18.

CENTERVILLE – Centerville received its first drinking water SRF loan in the amount of \$870,000 to construct water distribution system improvements. The loan is at 3.25 percent for 30 years.

CHAMBERLAIN – The city of Chamberlain obtained its first Drinking Water SRF loan in the amount of \$276,500 at 3.25 percent for 20 years to upgrade chemical feed and control systems and to make renovations to its water treatment plant.

CHANCELLOR – Chancellor’s first drinking water SRF loan for \$230,000 at 3.25 percent for 30 years will provide water distribution system improvements.

CLAY RURAL WATER SYSTEM – Clay RWS’s first drinking water SRF loan will expand the system to southern Union County. The loan is for \$4,331,000 at 3.25 percent for 30 years.

CLEAR LAKE – Clear Lake received a loan in the amount of \$565,000. This loan qualifies for the disadvantaged rate and term of 3 percent for 30 years. This project consists of constructing a new 300,000-gallon water tower and installation of a 2,700 LF of 10-inch water main to connect the tower with the water distribution system.

COLONIAL PINE HILLS SANITARY DISTRICT – Colonial Pine Hills improved its water distribution system with a \$659,000 loan at 3.5 percent for 20 years.

COLTON – The city of Colton connected to the Minnehaha CWC with a loan in the amount of \$681,720 at 3.5 percent for 30 years. The loan was also used for an elevated storage tank, water lines, wells, and new water treatment plant.

CROOKS – Crooks constructed a second connection to Minnehaha Community Water Corporation’s distribution system and replaced high service pumps to improve capacity. The loan, in the amount of \$302,900, is at 3.25 percent for 20 years.

CUSTER - Custer received an \$800,000 loan at 3.5 percent for 20 years to replace transmission and distribution water lines within the business district in conjunction with a South Dakota DOT project.

DAKOTA DUNES COMMUNITY IMPROVEMENT DISTRICT – Dakota Dunes will connect its water supply with the city of Sioux City, Iowa, with a \$908,000 loan at 3.5 percent for 20 years. This project includes construction of a line beneath the Big Sioux River connecting the city of Sioux City’s distribution system with Dakota Dunes and the cost to upsize water mains in Sioux City to provide the additional capacity necessary to serve Dakota Dunes.

DELL RAPIDS - Dell Rapids constructed various distribution system improvements with its first \$621,000 loan at 3.5 percent for 20 years. The city’s second loan, in the amount of \$162,263 at 3.25 percent for 20 years, financed the drinking water portion of the 4th Street Utility Improvements project.

DELMONT - Delmont received its first Drinking Water SRF loan to loop lines within the distribution system to improve water quality. The \$185,000 loan has a 2.5 percent interest rate with a 30-year term.

ELK POINT – Elk Point received its first loan in the amount of \$220,000 for water main replacement in conjunction with its Pearl Street Utility Improvement project at 3.5 percent for 20 years. Its second loan, in the amount of \$570,000 at 3.25 percent for 20 years, was used to upgrade the city’s water treatment plant. The city received a \$218,000 loan at 3.25 percent for 20 years, to fund the drinking water portion of the utility systems improvements. The fourth SRF loan awarded to Elk Point funded water line replacement on Clay and Washington Streets. This loan was for \$150,000 at 3.25 percent for 20 years.

EUREKA - Eureka utilized a \$135,000 loan at zero percent interest for ten year to replace water meters and implement a computer-generated water meter reading system.

FALL RIVER WATER USERS DISTRICT – The Fall River Water Users District received a \$759,000 loan at 3 percent interest for 30 years. This loan was used to finance the construction of the Fall River Rural Water System to include supply, storage, and distribution. Fall River’s second SRF loan in the amount of \$400,000 at 2.5 percent for 30 years was used for initial construction of the rural water system in Fall River County.

GARRETSON – The city of Garretson connected to the Minnehaha CWC with its \$1,261,060 loan at 3.5 percent for 30 years. The loan was used for water lines, wells, and a new water treatment plant.

GETTYSBURG – The city of Gettysburg received a \$565,000 loan at 4.5 percent interest for 20 years to replace and relocate water lines within the city.

GREGORY – The city of Gregory received \$380,000 for the construction of a new steel reservoir and a new booster station. The terms of the loan are 2.5 percent for 30 years.

GROTON - Groton's first loan in the amount of \$440,000 at 3.5 percent for 20 years funded replacement of water main in conjunction with its Main Street Utility Project. Its second loan, in the amount of \$365,900 at 3.25 percent for 20 years, funded additional waterline replacement.

HARRISBURG – The city of Harrisburg received its first loan in the amount of \$525,000 at 5 percent interest for 20 years to abandon its existing wells and water treatment plant, construct a connection to the Lincoln County RWS, construct an elevated water storage tank, and loop a line to ensure uninterrupted water service. The city's second loan, for \$1,291,925 at 3.25 percent for 20 years, funded an emergency connection to the Lewis and Clark Rural Water System. Harrisburg's third loan, in the amount of \$2,090,000 at 3.25 percent for 20 years, will fund an elevated water storage tower.

HARTFORD – Hartford received a \$185,000 loan at 5 percent interest for 20 years to replace water distribution lines throughout the city. With its second loan in the amount of \$800,957 at 3.5 percent for 20 years, Hartford replaced aging cast iron water mains. Hartford's third loan, in the amount of \$1,123,556 at 3.25 percent for 20 years, was used to improve the water supply by providing a second connection to the Minnehaha Community Water Corporation.

HERMOSA – Hermosa received a loan for \$300,000 at 5 percent for 20 years to replace water distribution lines.

HUMBOLDT – The city of Humboldt's first loan, in the amount of \$412,300 at 3.25 percent for 20 years, funded water supply and distribution system improvements.

HURON – Huron received a loan in the amount of \$4,000,000 at 3.5 percent for 20 years to fund the construction of a new water treatment facility, water tower improvements, and water meter replacement.

IRENE – The city of Irene received a 5 percent interest loan for 20 years in the amount of \$145,000 to replace water main along SD Highway 46.

KEYSTONE – Keystone used its first loan, in the amount of \$762,000 at 3.25 percent for 20 years, to build a 187,000 gallon reservoir, to close the loop on one-third of the town's system, and to install a pumping station.

KINGBROOK RWS – The Kingbrook Rural Water System received a loan in the amount of \$475,000. This loan was at 0 percent interest for 30 years. The project being financed hooked up the city of Carthage and upgraded its distribution system and storage tank. Kingbrook RWS took over the system and provided individual service. Kingbrook's second loan, in the amount of \$2,115,000 at 3.25 percent for 30 years, provided additional capacity within the system and provided service to Ramona and the Badger area. The third loan of \$3,324,000 at 3.25 percent for 20 years expanded the distribution system to allow 250 additional connections to the system. Kingbrook's fourth loan, \$2,350,000 at 3.25 percent for 20 years, continued with the improvements to the system's distribution system.

LEAD – Lead received a \$192,800 loan at 4.5 percent interest for 10 years. This loan helped replace water lines beneath a portion of US Highway 85 in conjunction with the South Dakota Department of Transportation roadway reconstruction project. Lead’s second drinking water SRF loan, in the amount of \$205,800 at 3.25 percent for 30 years, completed water main improvements associated with the Highway 85 project.

LEAD-DEADWOOD SANITARY DISTRICT – The Lead-Deadwood Sanitary District received a \$2,683,957, 5.25 percent, 20-year loan to refinance their Series 1994 General Obligation Bond issue. The Series 1994 bonds were originally issued to finance the construction of a new water treatment plant in Lead.

LENNOX – Lennox’s first loan, in the amount of \$2,000,000 at 3.25 percent for 30 years, was used to fund two wells, an elevated water storage reservoir, water main replacement and new lines.

LINCOLN COUNTY RURAL WATER SYSTEM – The RWS received a loan in the amount of \$1,200,000 at 3.5 percent for 20 years to fund storage improvements.

MADISON – Madison received a loan for \$2,372,000 to refinance their Series 1995 Bonds. The Series 1995 Bonds were originally issued to finance the rehabilitation of the treatment facility and the construction of three new wells. This loan is at 5 percent for 15 years.

MARTIN —Martin corrected undersized water lines and water supply issues with a \$920,000 loan at 2.5 percent for 30 years.

McLAUGHLIN – Improvements to McLaughlin’s water distribution system in conjunction with an SDDOT project were funded with a \$350,000 loan at 2.5 percent for 30 years.

MILBANK – Milbank secured a \$4,741,000 loan at 2.5 percent for 30 years to replace raw water transmission lines.

MILLER - The city of Miller was awarded a loan in the amount of \$255,200 at 2.5 percent for 10 years to replace water meters throughout the city.

MINA LAKE SANITARY DISTRICT – Mina Lake Sanitary District received a loan for \$255,200 at an interest rate of 5 percent for 20 years to construct a 150,000-gallon water tower.

MINNEHAHA COMMUNITY WATER CORPORATION – Minnehaha Community Water Corporation received a loan in the amount of \$6,500,000 at 3.5 percent for 20 years to expand its rural water system to the communities of Colton and Garretson. The loan was used for water lines, an elevated water storage tank, wells, and a new water treatment plant.

MISSION HILL - The first SRF loan awarded to Mission Hill will be used to construct a new water tower and install new water lines to loop dead-end lines. The loan is in the amount of \$250,000 at 3.25 percent for 20 years.

MITCHELL – The city of Mitchell received a \$6,000,000 loan at 4.5 percent interest for 20 years to connect to the B-Y Rural Water System by constructing a water pipeline from Lesterville west and north to Mitchell. The project involved 61 miles of pipe, two pumping stations, a water storage reservoir, a meter station and appurtenances.

MOBRIDGE – The city of Mobridge received two loans in the amounts of \$965,000 and \$355,000 to finance water treatment plant upgrades. Both loans are at 5.25 percent for 20 years. The city undertook a water line extension project along Lake Front Drive to provide water to new users and to loop the system. The project was funded with two loans in the amounts of \$213,500 and \$90,000 both at 2.50 percent for 30 years.

NISLAND – Nisland received a \$350,000 loan at 0.00 percent interest for 30 years to fund the reconstruction of its water distribution system.

PARKER – Parker’s first loan, in the amount of \$730,000 at 3.25 percent for 20 years, was used to replace cast iron water mains in various locations in the city. The city’s second loan, in the amount of \$300,000 at 3.25 percent for 20 years, funded the second phase of the water line replacement project.

PIERRE – The city of Pierre used a \$1,094,200 loan at 3.5 percent for 15 years to fund a well field expansion. The loan funded construction of new wells, well houses, and water distribution lines. Pierre’s second drinking water loan, \$1,832,900 at 3.5 percent for 15 years, funded construction of a new storage tank to create a third pressure zone within the city.

PLATTE – Platte replaced cast iron water mains with its first drinking water loan of \$400,000 at 2.5 percent for 10 years.

RAPID CITY – Rapid City’s first drinking water loan for \$3,500,000 at 3.5 percent for 20 years was used to finance a new water tank and transmission main in the southwest edge of the city.

REDFIELD – The City of Redfield received a loan in the amount of \$85,000 at an interest rate of 4.5 percent for 20 years. The loan financed the replacement of water lines located under US Hwy 212 and 281. The project involved construction of approximately 4,900 feet of pipe, services lines, and appurtenances and replaced brittle asbestos cement or cast iron pipes that are fifty to eighty years old. Redfield received a second loan, in the amount of \$342,755 at 2.5 percent for 30 years, to fund water line replacement on South Main Street and Sixth Avenue.

SALEM – Salem received a loan of \$126,921 at 3.5 percent for 10 years to fund water distribution improvements in the city. Salem’s second loan, in the amount of \$348,540 at 3.25 percent for 20 years, funded water distribution system improvements in 2005. The city’s third loan, in the amount of \$1,345,000 at 3.25 percent for 30 years, is for a microfiltration pretreatment system with a nanofiltration softening system in a new water treatment facility and the installation of a new well.

SCOTLAND – Scotland replaced water mains in conjunction with reconstruction of Main Street with its \$340,000 loan at 2.5 percent for 30 years.

SIoux FALLS – The city of Sioux Falls received a loan in the amount of \$7,022,000 at an interest rate of 4.5 percent for 10 years to finance central pressure zone improvements. The city's second loan allowed the city to continue with drinking water facility improvements with a loan for \$2,750,000 at 4.5 percent interest for 10 years. Its third loan, at 3.5 percent for ten years, was in the amount of \$7,930,000 for drinking water facilities improvements and water distribution line replacement. The city's fourth drinking water loan, \$5,279,000 at 3.5 percent for 10 years, funded the replacement of aging equipment and water main and the improvement of operational efficiency, maintenance space, and pressure zones. Sioux Falls' fifth drinking water loan in the amount of \$12,749,000 at 2.5 percent for 10 years was used to finance improvements to the water treatment plant, improvements to the West Pump Station, replacement of water mains, and upgrade of elevated finish tanks and collector wells. In 2008, Sioux Falls received three additional Drinking Water SRF loans, each at 2.5 percent for 10 years. The city's sixth loan, for \$17,848,000, is for the construction of a new backwash basin and additional filters to improve operational efficiencies in the treatment plant. The seventh loan is to upgrade a vertical well to a horizontal collector well to increase production capacity and is for \$2,200,000. The eighth loan, in the amount of \$2,705,600, will replace water mains in two areas and replace valves at several locations.

SOUTH LINCOLN RWS – A \$2,000,000 loan at 3.5 percent for 20 years funded South Lincoln RWS's pipeline, well and pumping improvements. In addition, new facilities were constructed to provide connection of South Lincoln's system to the Lewis and Clark RWS.

STURGIS – Sturgis received a loan for \$700,000 at 5 percent interest for 15 years. This loan financed the replacement of approximately 7,800 feet of water main in conjunction with a South Dakota Department of Transportation roadway reconstruction project.

TEA - Tea received a loan in the amount of \$1,714,327 at 3.25 percent for 20 years for an emergency connection to the Lewis and Clark Rural Water System.

TRIPP – The city of Tripp received a loan for \$291,000 at 2.5 percent interest for 30 years to complete the city's on-going water main rehabilitation project. The project involved approximately 8,100 feet of pipe, service connections, valves, fire hydrants and appurtenances to replace 70 year old cast iron water mains.

TRIPP COUNTY WUD – Tripp County Water Users District was awarded two loans in 2003. The first loan, \$3,500,000 at 2.5 percent for 30 years, funded expansion of the TCWUD into Gregory County and absorbed the East Gregory Rural Water System. The second loan, \$148,000 at zero percent interest for 30 years, allowed the District to assume the water distribution system at Wood.

TYNDALL – Tyndall received a loan for \$300,000 at 2.5 percent interest for 10 years. This loan financed the installation of approximately 2,800 feet of water main to enhance the overall efficiency of the distribution system by looping areas of the community that were dead ends. Tyndall received a second loan in the amount of \$861,000 to fund connection to the B-Y Rural Water System. This loan is at 2.5 percent interest for 30 years.

VERMILLION – Vermillion received a loan for \$942,000 at 5 percent interest for 20 years. This loan was used to construct lime sludge disposal lagoons. Vermillion’s second loan, \$1,510,000 at 3.5 percent interest for 20 years, funded water treatment plant improvements. Vermillion’s third drinking water SRF loan, in the amount of \$3,772,500 at 2.5 percent for 20 years, funded phase 3 improvements to the water treatment plant.

VIBORG - The city of Viborg’s first SRF loan was used to replace water distribution lines and loop lines at various locations in the city. The loan amount is \$249,775 with an interest rate of 3.25 percent and a term of 20 years.

WAGNER – Wagner received its first drinking water loan in the amount of \$750,000 at the disadvantaged rate of zero percent interest for 30 years to make improvements to its water tower and replace water lines. The city’s second loan replaced water utilities along North Park St. and North Street and is in the amount of \$175,000 at the disadvantaged rate of zero percent interest for 30 years.

WATERTOWN - Watertown’s first Drinking Water SRF loan will be used to develop a new well field and expand the city water treatment plant in order to discontinue using the Lake Kampeska water source and treatment facility and replace a standpipe with a new 2-million gallon standpipe. The loan is for \$23,760,000 at 3.25 percent interest and a 20-year term.

WAUBAY – The city of Waubay’s first loan, in the amount of \$750,000 at the disadvantaged rate of 2.5 percent for 30 years, funded phase 1 of the city’s drinking water distribution system improvements.

WEB – WEB Water Development Association, Inc. received a loan for \$1,110,000 at 5 percent interest for 15 years. The project would have allowed WEB to extend service to approximately 200 additional rural homes and farms and provide additional water service to four existing bulk users. The Board of Water and Natural Resources rescinded this loan on May 13, 1999. WEB applied for and received a \$137,450 loan at 2.5 percent interest for 30 years to improve water service in the community of Glenham by replacing the town’s water distribution system. This loan was rescinded on June 27, 2003. WEB was awarded its third drinking water SRF loan in the amount of \$3,950,000 at 3.25 percent for 20 years to increase the capacity of its water treatment plant. The award was contingent upon a specific loan closing date, which was not met, and the application was withdrawn at WEB’s request.

WEBSTER – The city of Webster received a \$330,000 loan at 3.5 percent interest for 20 years to fund replacement of cast iron water mains with PVC pipe and replacement of water services and fire hydrants.

WEST RIVER/LYMAN-JONES RURAL WATER SYSTEM – WR/LJ received a loan in the amount of \$340,000 at 2.5 percent for 30 years to fund water main replacement in the town of Reliance. WRLJ’s second loan, in the amount of \$8,000,000 at 3.25 percent for 30 years, funded phase 1 of the construction of the north loop pipeline to provide service to Stanley and Haakon counties.

WOLSEY – Wolsey’s first drinking water SRF loan, \$227,950 at 3.25 percent for 20 years, funded a waterline replacement project. The city’s second loan, in the amount of \$162,300 at 3.25 percent for 20 years, funded water line replacement in conjunction with the SDDOT’s reconstruction of Highway 14/281.

WORTHING — Worthing received its first loan in the amount of \$288,000 at 3.5 percent for 20 years for improvements to the city’s water distribution system.

YANKTON – Yankton utilized a \$3,460,000 loan for line replacement and water treatment plant improvements to include a new disinfection system. The loan is at 3.5 percent for 20 years. The city secured a second loan in the amount of \$1,100,000 at 3.25 percent for 20 years to install a high pressure area pump station and transmission lines.

TOTAL OF ALL DWSRF DISBURSEMENTS

\$13,976,394.75

Disbursements to the State of SD reflect reimbursements for disbursements made through the state accounting system. These reimbursements are for payroll expenses, overhead costs, and set-aside expenditures. These reimbursements are rounded and do not reflect expenses as incurred during the year. Expenses reimbursed also may be from a prior fiscal year. See Financial Statements for expenses incurred on an accrual basis.

**Drinking Water State Revolving Fund
Notes To The Financial Statements
June 30, 2008**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Authorizing Legislation

The Drinking Water State Revolving Fund (DWSRF) Loan Program was federally authorized by the Safe Drinking Water Act Amendments of 1996. The state authorized the loan program in 1994 in anticipation of federal action. The Environmental Protection Agency (EPA) developed final guidance for the Drinking Water State Revolving Fund on February 28, 1997. The South Dakota Conservancy District, acting in its capacity as the Board of Water and Natural Resources, conducted a public hearing on April 15, 1997 to adopt formal administrative rules for the program. The Department of Environment and Natural Resources performs all of the functions of the South Dakota Conservancy District, except for quasi-legislative, quasi-judicial, advisory, and special budgetary functions, which are performed by the District acting in its capacity as the Board of Water and Natural Resources. The DWSRF is a low interest loan program to finance drinking water projects. Funds are provided to the states in the form of capitalization grants awarded annually through the United States Environmental Protection Agency. The federal capitalization grants are matched by state funds at a ratio of 5:1. The Drinking Water State Revolving Fund is a part of the State of South Dakota and, as such, the accompanying financial statements are included in the Comprehensive Annual Financial Report of the State of South Dakota.

B. Fund Accounting

The DWSRF is accounted for as an enterprise fund. An enterprise fund is a proprietary fund type used to report an activity for which a fee is charged to external users for goods or services.

C. Basis of Accounting

The DWSRF follows the accrual basis of accounting. This method of accounting recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of the timing of related cash flows. The DWSRF follows all Governmental Accounting Standards Board (GASB) pronouncements and those Financial Accounting Standards Boards Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins that were issued on or before November 30, 1989, except those that conflict with a GASB pronouncement.

D. Cash and Cash Equivalents

For purposes of the accompanying statement of net assets and statement of cash flows all highly liquid investments with original maturities of 90 days or less are considered to cash equivalents.

E. Investments

Investments are reported at fair value. Unrealized gains and losses due to fluctuations in market value are included in investment income.

F. Deferred Charges

Issuance costs, discounts, and premiums on bonds are amortized using the straight line method over the life of the bonds to which they relate.

G. Reserves

The bond indentures provide that certain reserve accounts be established. The reserves as of June 30, 2008 consist of an Investment Agreement at 5.56% with CDC Funding Corporation due August 1, 2008 totaling \$528,812. Also an Investment Agreement at 5.07% with AIG Matched Funding Corp due August 1, 2025 totaling \$419,250. The reserves are reported as restricted assets in the financial statements.

In addition, \$11,033 is invested in the Goldman Sachs Fund described in note 2 below.

H. Restricted Resources

When both restricted and unrestricted resources are available for use, it is the DWSRF's policy to use restricted resources first, and then unrestricted resources as they are needed.

I. Revenue and Expense Recognition

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering items in connection with an enterprise fund's principal ongoing operations. The DWSRF records all revenues derived from interest on loans, and federal capitalization grants as operating revenues since these revenues are generated from the DWSRF's daily operations needed to carry out its purpose. Operating expenses include interest expense on bonds, grants and subsidies, and contractual service expenses related to the administration of the DWSRF program.

J. Federal Capitalization Grant

Federal capitalization grants reported as operating income in the statement of revenues, expenses, and changes in fund net assets is a federally funded loan program. Information about the program is as follows:

CFDA Number:	66.468
Federal Agency:	Water Management Division
Program:	Drinking Water State Revolving Fund
State Agency:	Environment & Natural Resources
Expenditures:	\$113,089,076
Outstanding Loans:	\$112,474,287
Current Year	
Administrative Expense:	\$614,789
Loan Disbursement:	\$13,994,779

2. CASH AND INVESTMENTS

Cash and Cash Equivalents consist of a Goldman Sachs Financial Square Treasury Obligation Fund (mutual fund) and is rated "AAA" by Standard and Poor's Rating Group. The fund paid on average approximately 3.33% for the year ending June 30, 2008.

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank failure, the Drinking Water State Revolving Fund's investments may not be returned. At June 30, 2008, \$55,536,997 of guaranteed investment contracts were uninsured and unregistered, with the securities held by its trust department, but not in the DWSRF's name.

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The maturities of the investments are listed below.

<u>Investment</u>	<u>Maturities</u>	<u>Fair Value</u>
Guaranteed Investment Contract	8/01/2008	\$7,774,934
Guaranteed Investment Contract	5/01/2011	26,922,958
Guaranteed Investment Contract	8/01/2025	18,229,618
Guaranteed Investment Contract	8/01/2026	<u>2,609,487</u>
		<u>\$55,536,997</u>

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the DWSRF. The South Dakota State Revolving Fund Master Trust Indenture requires any investment agreement to be with a guarantor whose long-term rating category is no lower than the two highest long-term rating categories. The investment is rated by Moody's Investors Service.

<u>Moody's Rating</u>	<u>Fair Value</u>
Aaa	\$ 7,774,934
Aa3	20,839,105
A2	<u>26,922,958</u>
	<u>\$ 55,536,997</u>

Additional guarantors' ratings fell below the acceptable rating category (i.e., below Moody's Aa3) subsequent to the financial reports reporting periods. All investments that fell below the acceptable rating category have been fully collateralized with government securities in accordance with the provisions of Guaranteed Investment Contracts.

3. LOANS RECEIVABLE

Loans receivable consists of loans made to local governments through a loan agreement. In order for a local government to receive a loan, evidence must be shown that the principal and interest of the loan will be repaid. Loans made from the DWSRF may be made at or below market interest rates and shall be fully amortized within twenty years, unless the loan is to a Disadvantaged Community, in which case the loan must be amortized within 30 years. Interest rates are reduced for those loans with shorter amortization periods.

4. LONG-TERM DEBT

Revenue Bonds

The bond issues outstanding as of June 30, 2008 are as follows:

<u>Issue</u>	<u>Interest Rate</u>	<u>Maturity Through</u>	<u>Principal Balance</u>
Series 1998A			
Serial Bonds	4.5%-4.9%	2012	\$ 1,580,000

2019-2023	17,590,000	5,755,886	23,345,886
2024-2028	13,600,000	1,747,094	15,347,094
2029-2030	<u>2,455,000</u>	<u>105,114</u>	<u>2,560,114</u>
TOTAL	<u>\$60,355,000</u>	<u>\$ 29,730,456</u>	<u>\$90,085,456</u>

Changes in long-term liabilities

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Revenue Bonds	\$44,801,113	\$18,046,857	\$1,735,678	\$61,112,292	\$ 1,788,820
Compensated Absences	<u>30,599</u>	<u>15,924</u>	<u>-1,756</u>	<u>48,279</u>	<u>25,472</u>
Long-Term Liabilities	<u>\$44,831,712</u>	<u>\$18,062,781</u>	<u>\$1,733,922</u>	<u>\$61,160,571</u>	<u>\$ 1,814,292</u>

5. COMMITMENTS

As of June 30, 2008, the DWSRF had loan commitments with political subdivisions worth \$33,700,009.

6. RETIREMENT PLAN

The Department of Environment and Natural Resources participates in the South Dakota Retirement System (SDRS), a cost-sharing, multiple-employer defined benefit pension plan established to provide retirement, disability, and survivor benefits for employees of the State and its political subdivisions. Authority for establishing, administering and amending plan provisions is found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements, footnote disclosures, and required supplementary information. That report may be obtained by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

Employees are required by state statute to contribute 6 percent of their salary to the plan. State statute also requires the employer to contribute an amount equal to the employee's contribution. The right to receive retirement benefits vests after three years of credited service. The DWSRF contributions to the SDRS for the fiscal years ended June 30, 2008, 2007, and 2006, were \$11,075.87, \$10,212.45, and \$10,173.06, respectively, equal to the required contributions each year.

7. ANNUAL AND SICK LEAVE ACCRUAL

All employees earn annual leave. Upon termination, employees are eligible to receive compensation for their accrued annual leave balances. At June 30, 2008, a liability existed for accumulated annual leave calculated at the employee's June 30, 2008, pay rate in the amount of \$22,143. Employees who have been continuously employed by the State of South Dakota for at least seven years prior to the date of their retirement, voluntary resignation or death will receive payment for one-fourth of their accumulated sick leave balance. This payment is not to exceed the sum of twelve weeks of employee's annual compensation. At June 30, 2008, a liability existed for accumulated sick leave, calculated at each employee's June 30, 2008, pay rate in the amount of \$26,136. The total leave liability of \$48,279 at June 30, 2008, is shown as a liability on the balance sheet.

8. PUBLIC ENTITY POOL FOR LIABILITY

The Department of Environment and Natural Resources is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Department is uninsured for property loss. The Department participates in the various programs administered by the State of South Dakota. These risk management programs are funded through assessments charged to participating entities. The risk management programs include; 1) coverage for risks associated with automobile liability and general tort liability (including public officials' errors and omissions liability, medical malpractice liability, law enforcement liability, and products liability) through the State's Public Entity Pool for Liability Fund, 2) coverage of employee medical claims through the State's health insurance program, 3) coverage for unemployment benefits through the State's Workers' Compensation Fund, and, 4) coverage for workers' compensation benefits through the State's Workers' Compensation Fund. Financial information relative to the self-insurance funds administered by the State is presented in the State of South Dakota Comprehensive Annual Financial Report.

ADDENDUM A
FEDERAL FISCAL YEAR 2009
INTENDED USE PLAN

SOUTH DAKOTA DRINKING WATER STATE REVOLVING FUND FISCAL YEAR 2009 INTENDED USE PLAN

INTRODUCTION

The Safe Drinking Water Act Amendments of 1996 and South Dakota Codified Law 46A-1-60.1 to 46A-1-60.3, inclusive, authorize the South Dakota Drinking Water State Revolving Fund (SRF) program. Program rules are established in Administrative Rules of South Dakota chapter 74:05:11.

The state of South Dakota proposes to adopt the following Intended Use Plan (IUP) for the federal fiscal year 2009 as required under Section 1452(b) of the Safe Drinking Water Act and ARSD 74:05:11:03. The IUP describes how the state intends to use the Drinking Water SRF to meet the objectives of the Safe Drinking Water Act and further the goal of protecting public health. A public hearing was held on November 6, 2008, to review the 2009 Intended Use Plan and receive comments. The IUP reflects the results of this review.

The IUP includes the following:

- Priority list of projects;
- Short- and long-term goals;
- Criteria and method of fund distribution;
- Funds transferred between the Drinking Water SRF and the Clean Water SRF;
- Financial status;
- Description and amount of non-Drinking Water SRF (set-aside) activities; and
- Disadvantaged community subsidies.

PRIORITY LIST OF PROJECTS

A project must be on the project priority list, Attachment I, to be eligible for a loan. This list was developed from the State Water Plan and includes projects that did not designate Drinking Water SRF loans as a funding source.

Projects may be added to the project priority list at any meeting of the Board of Water and Natural Resources if the action is included on the agenda at the time it is posted.

Priority ratings are based on the project priority system established in ARSD 74:05:11:06. The general objective of the priority system is to assure projects that address compliance or health concerns, meet certain affordability criteria, or regionalize facilities receive priority for funding.

Attachment II is a list of those projects from which the department expects to receive applications. The estimated funding dates are only estimates and should not be interpreted as deadlines or that the loan funds have been reserved. Projects with a later expected funding date may receive loans prior to those projects with an earlier date based on time of submittal of its funding application. Any project that is listed on the project priority list, but not listed on Attachment II, will be moved to Attachment II upon submittal of an application. Attachment II will be revised as projects are added. These revisions do not require approval by the Board of Water and Natural Resources.

GOALS, OBJECTIVES, AND ENVIRONMENTAL RESULTS

The long-term goals of the Drinking Water SRF are to fully capitalize the fund, ensure that the state's drinking water supplies remain safe and affordable, ensure that systems are operated and maintained, and promote economic well-being.

The specific long-term objectives of the program are:

1. To maintain a permanent, self-sustaining SRF program that will serve in perpetuity as a financing source for drinking water projects and source water quality protection measures. This will necessitate that the amount of capitalization grant funds for non-Drinking Water SRF activities are reviewed annually to assure adequate cash flow to maintain the fund.
2. To fulfill the requirements of pertinent federal, state, and local laws and regulations governing safe drinking water activities, while providing the state and local project sponsors with maximum flexibility and decision making authority regarding such activities.

The short-term goal of the SRF is to fully capitalize the fund.

The specific short-term objectives of the program are:

1. To assist systems in replacing aging infrastructure.
2. To assist systems in maintaining and upgrading its water treatment capabilities to ensure compliance with the Safe Drinking Water Act.

3. To promote regionalization and consolidations of water systems, where mutually beneficial, as a practical means of addressing financial, managerial, and technical capacity.
4. To ensure the technical integrity of Drinking Water SRF projects through the review of planning, design plans and specifications, and construction activities;
5. To ensure the financial integrity of the Drinking Water SRF program through the review of the financial impacts of the set-asides and disadvantaged subsidies and individual loan applications and the ability for repayment;
6. To obtain maximum capitalization of the funds for the state in the shortest time possible while taking advantage of the provisions for disadvantaged communities and supporting the non-Drinking Water SRF activities.

Environmental Results

Beginning January 1, 2005, states were required to establish program activity measures (outcomes) in its Intended Use Plan to receive the federal capitalization grant. Progress related to the measures are to be reported in the following annual report.

For fiscal year 2009, the specific measures are:

1. In fiscal year 2008, the fund utilization rate, as measured by the percentage of executed loans to funds available, was 98.9 percent, which is well above the national average of 88 percent. For fiscal year 2009, the goal of the Drinking Water SRF program is to maintain the fund utilization rate at or above 90 percent.

2. In fiscal year 2008, the rate at which projects progressed as measured by disbursements as a percent of assistance provided was 71.6 percent, which was lower than the goal of 80%. For fiscal year 2009, the goal is to increase the construction pace above 80 percent.
3. For fiscal year 2009, the goal of the Drinking Water SRF program is to fund 12 loans, totaling \$30 million.
4. For fiscal year 2009, it is estimated that 18 projects will initiate operations.
5. For fiscal year 2009, it is estimated that 10 Small Community Planning Grants will be awarded to small systems to evaluate the system's infrastructure needs.
6. For fiscal year 2009, it is estimated that the South Dakota Association of Rural Water Systems will provide 1,500 hours of technical assistance to small systems.

CRITERIA AND METHOD OF FUND DISTRIBUTION

Projects will be funded based on their assigned priority as set forth on the Project Priority list. Projects with the highest ranking that have submitted a complete State Revolving Fund loan application and demonstrated adequate financial, managerial, and technical capacity to receive the loan shall be funded before any lower ranked projects. Projects on the priority list may be bypassed if they have not demonstrated readiness to proceed by submitting a loan application. The next highest priority project that has submitted an application will be funded. The state shall exert reasonable effort to assure that the higher priority projects on the priority list are funded.

Interest rates are reviewed periodically and are set to be competitive with other funding

agencies. The interest rates for fiscal year 2009 are summarized in Table 1. Information regarding disadvantaged eligibility and subsidy level criteria can be found in the disadvantaged community subsidies section.

The interest rate includes an administrative surcharge as identified in Table 1. The primary purpose of the surcharge is to provide a pool of funds to be used for administrative

Table 1 - Drinking Water SRF Interest Rates				
	Up to 3 Yrs	Up to 10 Yrs	Up to 20 Yrs	Up to 30 Yrs
<u>Interim Rate</u>				
Interest Rate	2.00%			
Admin. Surcharge	<u>0.00%</u>			
Total	2.00%			
<u>Base Rate</u>				
Interest Rate		2.00%	2.50%	
Admin. Surcharge		<u>0.50%</u>	<u>0.75%</u>	
Total		2.50%	3.25%	
<u>Disadvantaged Rate - 100% of MHI</u>				
Interest Rate				2.50%
Admin. Surcharge				<u>0.75%</u>
Total				3.25%
<u>Disadvantaged Rate - 80% of MHI</u>				
Interest Rate				2.00%
Admin. Surcharge				<u>0.50%</u>
Total				2.50%
<u>Disadvantaged Rate - 60% of MHI</u>				
Interest Rate				0.00%
Admin. Surcharge				<u>0.00%</u>
Total				0.00%

purposes after the state ceases to receive capitalization grants. The administrative surcharge is also available for other purposes, as determined eligible by EPA and at the discretion of the Board of Water and Natural Resources and department. As of September 30, 2008, \$4.28 million of administrative surcharge funds are available.

Beginning in fiscal year 2005, administrative surcharge funds were provided to the planning districts to defray expenses resulting from SRF application preparation and project administration. Reimbursement is \$7,500 per approved loan with payments made in \$2,500 increments as certain milestones are met. Based on recent loan demand, an additional \$150,000 will be obligated for this purpose in fiscal year 2009.

A requirement of the program is that a minimum of 15 percent of all dollars credited to the fund be used to provide loan assistance to small systems that serve fewer than 10,000 persons. Since the inception of the program, loans totaling more than \$71.5 million have been made to systems meeting this population threshold, or 35.0 percent of the \$204.2 million of total funds available for loan. With \$2.82 million identified for systems serving fewer than 10,000 persons on Attachment II – List of Projects to be funded in Fiscal Year 2009, the state expects to continue to exceed the 15 percent threshold.

Water systems must demonstrate the technical, managerial, and financial capability to operate a water utility before it can receive a loan.

The distribution methods and criteria are designed to provide affordable assistance to the borrower with maximum flexibility while providing for the long-term viability of the fund.

AMOUNT OF FUNDS TRANSFERRED BETWEEN THE DRINKING WATER SRF AND THE CLEAN WATER SRF

The Safe Drinking Water Act Amendments of 1996 and subsequent Congressional action allows states to transfer an amount equal to 33 percent of its Drinking Water SRF capitalization grant to the Clean Water SRF or an equivalent amount from the Clean Water SRF to the Drinking Water SRF. States can also transfer state match, investment earnings, or principal and interest repayments between SRF programs and may transfer a previous year's allocation at any time.

South Dakota transferred \$15,574,320 from the Clean Water SRF program in past years. In fiscal year 2006, \$7.5 million of leveraged bond proceeds was transferred from the Drinking Water SRF program to the Clean Water SRF program. With the 2009 capitalization grants, the ability exists to transfer up to \$20.0 million from the Clean Water SRF program to the Drinking Water SRF program. Up to \$28.1 million could be transferred from the Drinking Water SRF Program to the Clean Water SRF program. Table 2 (page 9) itemizes the amount of funds transferred between the programs and the amount of funds available to be transferred.

No transfers are anticipated in fiscal year 2009.

FINANCIAL STATUS

Loan funds are derived from various sources and include federal capitalization grants, state match, leveraged bonds, borrowers' principal repayments, and interest earnings.

Capitalization Grants/State Match: Federal capitalization grants are provided to the state annually. These funds must be matched by the state at a ratio of 5 to 1. The fiscal year

2009 capitalization grant is expected to be \$8,146,000 which requires \$1,629,200 in state match. Bond proceeds will be used to match 2009 capitalization grant funds. The bonding authority for this program is established in SDCL 46A-1-60.1.

Leveraged Bonds: The South Dakota Conservancy District has the ability to issue additional bonds above that required for state match, known as leveraged bonds. Additional (leveraged) bonds above that required for state match were issued in fiscal years 2004, 2006, and 2008 in amounts of \$22.5 million, \$14.5 million and \$13.0 million, respectively. Subsequently, \$7.5 million of the 2006 proceeds were transferred to the Clean Water SRF program. To meet the expected demand for fiscal year 2009 the district expects to raise additional revenue by issuing a minimum of \$10,000,000 in leveraged bonds.

Borrowers' Principal Repayments: The principal repaid by the loan borrowers is used to make semi-annual leveraged bond payments. Any excess principal is available for loans. It is estimated that \$6.8 million in principal repayments will be available for loans in fiscal year 2009.

Interest Earnings: The interest repaid by the loan borrowers, as well as interest earned on investments, is dedicated to make semi-annual state match bond payments. Any excess interest is available for loans. It is estimated that \$2.7 million in interest earnings will be available for loans in fiscal year 2009.

As of September 30, 2008, 122 loans totaling \$223,833,947 have been made.

At the beginning of fiscal year 2009, \$2,306,079 is available for loan. The attached project priority list identifies nearly \$48.4 million in potential loans. With the 2009 capitalization grant, state match,

leveraged bonds, excess interest earnings, and repayments, approximately \$48.8 million will be available to loan. This information is provided in Attachment III, Drinking Water SRF Funding Status.

Funds will be allocated to the set-aside activities in the amounts indicated below. All remaining funds will be used to fund projects on the project priority list. A more detailed description of the activities can be found in the section pertaining to set-asides and the attachments.

Administration	\$325,840
Small System Technical Assistance	\$162,920
State Program Management	\$50,000
Total for set-asides	\$538,760

The program has received eleven previous capitalization grants totaling \$99,939,500 and has provided the required state match of \$19,987,900. Of this amount, \$5,607,994 was allocated to set-aside activities as follows: \$3,997,580 for administration, \$1,384,908 for small system technical assistance, \$4,300 for state program management – operator certification, \$21,206 for capacity development, and \$200,000 for wellhead protection support.

With the adoption of the amended and restated Master Indenture in 2004, the Clean Water and Drinking Water SRF programs are cross-collateralized. This allows the board to pledge excess revenues on deposit in the Drinking Water SRF program to act as additional security for bonds secured by excess revenues on deposit in the Clean Water SRF program, and vice versa.

A conservative approach to set-asides and subsidized loans has been taken to assure achieving the goals of developing a permanent, self-sustaining SRF program. Future demand on the program will influence

the allocation of funds to set-asides and loan subsidies.

The Safe Drinking Water Act included three provisions that call for a withholding of Drinking Water SRF grant funds where states fail to implement three necessary programmatic requirements. These provisions were assuring the technical, financial and managerial capacity of new water systems, developing a strategy to address the capacity of existing systems, and developing an operator certification program that complies with EPA guidelines. The State of South Dakota continues to meet the requirements of these provisions and will not be subject to withholding of funds.

DESCRIPTION AND AMOUNT OF NON-PROJECT ACTIVITIES (SET-ASIDES)

The Safe Drinking Water Act authorizes states to provide funding for certain non-project activities provided that the amount of that funding does not exceed certain ceilings. Unused funds in the non-Drinking Water SRF will be banked for future use, where allowable, or transferred to the project loan account at the discretion of the State and with concurrence from the EPA Regional Administrator.

The following sections identify what portions of the capitalization grant will be used for non-Drinking Water SRF activities and describe how the funds will be used.

Administration. Four percent of the fiscal year capitalization grant (\$325,840) will be allocated to administer the Drinking Water SRF program. This is the maximum allowed for this purpose.

Specific activities to be funded are: staff salary, benefits, travel, and overhead; retaining of bond counsel, bond underwriter,

financial advisor, and trustee; and other costs to administer the program.

Unused administrative funds will be banked to assure a source of funds not dependent on state general funds.

Small system technical assistance. Two percent of the capitalization grant (\$162,920) will be allocated to provide technical assistance to public water systems serving 10,000 or fewer. This is the maximum allowed for this purpose.

The objective of this set-aside is to bring non-complying systems into compliance and improve operations of water systems.

In fiscal year 1997, the board contracted with the South Dakota Association of Rural Water Systems to help communities evaluate the technical, managerial, and financial capability of its water utilities. These contracts have been renewed annually. The contract will be amended to allow the continuation of assistance activities. The South Dakota Association of Rural Water Systems has been allocated \$688,816 in set-aside funds. The Rural Water Association provides such on-site assistance as leak detection, consumer confidence reports, water audits, board oversight and review, treatment plant operations, operator certification, and rate analysis. Contracts to date have provided approximately 11,100 hours of on-site small system technical assistance.

To promote proactive planning within small communities, the Small Community Planning Grant program was initiated in fiscal year 2001. The systems are reimbursed 80 percent of the cost of an engineering study, with the maximum grant amount for any project being \$6,000. One hundred-eighteen grants have been made for this purpose, totaling \$438,773 in obligations. Grants are available only for

communities with a population of 2,500 or less.

The board also provides additional grants for studies incorporating a rate analysis using Rate Maker software. Reimbursement for performing a rate analysis is 80 percent of costs up to a maximum of \$1,600. Twenty-one grants, totaling \$29,600, have been awarded for rate analyses.

To assure available funds to support the existing small system technical assistance endeavors, \$162,920 from the fiscal year 2009 capitalization grant will be allocated to this set-aside. Unused funds from previous years' set-aside for small system technical assistance are banked for use in future years. Currently, \$145,718 remains from previous years' allocations to be used for the purposes described above.

State program management. \$50,000 will be used to contract with the Midwest Assistance Program (MAP).

The state may use up to 10 percent of its allotment to (1) administer the state PWSS program; (2) administer or provide technical assistance through water protection programs, including the Class V portion of the Underground Injection Control program; (3) develop and implement a capacity development strategy; and (4) develop and implement an operator certification program. A dollar-for-dollar match of capitalization funds must be provided for these activities.

In 2008, the Midwest Assistance Program (MAP) submitted a proposal to assist small communities that received an SRF loan and recommendations were made in the capacity assessment to improve the technical, financial, or managerial capacity of the system. The Midwest Assistance Program worked with the DENR Capacity Assessment

Coordinator to identify communities for follow-up reviews. Eleven follow-up reviews were completed in fiscal year 2008. The DENR and the Midwest Assistance Program will continue the partnership in FY 2009 and \$50,000 will be allocated for this activity. The Midwest Assistance Program dedicates approximately one-half FTE to conduct 3 or 4 reviews per quarter.

Local assistance and other state programs.

The state can fund other activities to assist development and implementation of local drinking water protection activities. Up to 15 percent of the capitalization grant may be used for the activities specified below, but not more than 10 percent can be used for any one activity. The allowable activities for this set-aside are: (1) assistance to a public water system to acquire land or a conservation easement for source water protection; (2) assistance to a community water system to implement voluntary, incentive-based source water quality protection measures; (3) to provide funding to delineate and assess source water protection areas; (4) to support the establishment and implementation of a wellhead protection program; and (5) to provide funding to a community water system to implement a project under the capacity development strategy.

No funds will be set-aside for these activities in federal fiscal year 2009.

DISADVANTAGED COMMUNITY SUBSIDIES

Communities that meet the disadvantaged eligibility criteria described below may receive additional subsidies. This includes communities that will meet the disadvantaged criteria as a result of the project.

Definition. To be eligible for loan subsidies a community must meet the following criteria:

(1) for municipalities and sanitary districts:

- (a) the median household income is below the state-wide median household income; and
- (b) the monthly residential water bill is \$20 or more for 5,000 gallons usage; or

(2) for other community water systems:

- (a) the median household income is below the state-wide median household income; and
- (b) the monthly water bill for rural households is \$50 or more for 7,000 gallons usage.

The source of income statistics will be the most recent federal census or statistically valid information supplied by the applicant.

Affordability criteria used to determine subsidy amount. Loans given to disadvantaged communities may have a term up to 30 years or the expected life of the project, whichever is less. Disadvantaged communities below the statewide median household income, but at or greater than 80 percent, are eligible to extend the term of the loan up to 30 years. Disadvantaged communities below 80 percent of the statewide median household income, but at or greater than 60 percent may receive up to a two percentage point reduction in interest rates. See Table 1 on page 3 for the disadvantaged interest rate for fiscal year

2009. Disadvantaged communities with a median household income less than 60 percent of the statewide median household income may receive a zero percent loan.

Amount of capitalization grant to be made available for providing additional subsidies. Additional subsidies in the form of principal forgiveness or negative interest rates are not authorized under the program rules.

Identification of systems to receive subsidies and the amount. Systems that are eligible to receive disadvantaged community rates and terms are identified in Attachment I and Attachment II.

Table 2 - Amounts Available to Transfer between State Revolving Fund Programs

Year	DWSRF Capitalization Grant	Amount Available for Transfer	Banked Transfer Ceiling	Amount Transferred from CWSRF to DWSRF	Amount Transferred from DWSRF to CWSRF	Transfer Description	CWSRF Funds Available to Transfer	DWSRF Funds Available to Transfer
1997	\$12,558,800	\$4,144,404	\$4,144,404				\$4,144,404	\$4,144,404
1998	\$7,121,300	\$2,350,029	\$6,494,433				\$6,494,433	\$6,494,433
1999	\$7,463,800	\$2,463,054	\$8,957,487				\$8,957,487	\$8,957,487
2000	\$7,757,000	\$2,559,810	\$11,517,297				\$11,517,297	\$11,517,297
2001	\$7,789,100	\$2,570,403	\$14,087,700				\$14,087,700	\$14,087,700
2002	\$8,052,500	\$2,657,325	\$16,745,025	\$7,812,960		CW Cap Grant/Match	\$8,932,065	\$16,745,025
2003	\$8,004,100	\$2,641,353	\$19,386,378	\$7,761,360		CW Cap Grant/Match	\$3,812,058	\$19,386,378
2004	\$8,303,100	\$2,740,023	\$22,126,401				\$6,552,081	\$22,126,401
2005	\$8,352,500	\$2,756,325	\$24,882,726				\$9,308,406	\$24,882,726
2006	\$8,229,300	\$2,715,669	\$27,598,395		\$7,500,000	Leveraged Bonds	\$12,024,075	\$20,098,395
2007	\$8,229,000	\$2,715,570	\$30,313,965				\$14,739,645	\$22,813,965
2008	\$8,146,000	\$2,632,570	\$32,946,535				\$17,372,215	\$25,446,535
2009 (est)	\$8,146,000	\$2,632,570	\$35,579,105				\$20,004,785	\$28,079,105

ATTACHMENT I

PROJECT PRIORITY LIST

Attachment I is a comprehensive list of projects that are eligible for Drinking Water SRF loans. This list was developed from State Water Plan applications. Inclusion on the list carries no obligations to the Drinking Water SRF program. Attachment II lists those projects expected to be funded in fiscal year 2009.

Priority Points	Community/ Public Water System	Project Number	Project Description	Est. Loan Amount	Expected Loan Rate & Term	Pop. Served	Dis-advan-taged
154	New Underwood	C462257-01	<i>Problem:</i> the city in violation of maximum contaminant levels for radium and gross alpha which has resulted in a compliance order from DENR. <i>Project:</i> construction of a media adsorption filter system, building, and appurtenances to treat water from Well #2.	\$165,000	3.25%, 20 yrs	616	
142	Englehart Estates	C462461-01	<i>Problem:</i> the shallow wells serving the system are unreliable due to low water levels resulting from a recent drought, and the system is not metered and is not sampling as required. <i>Project:</i> Abandon the existing wells, install approximately 4000 feet of water main to connect to the city of New Underwood, replace the existing distribution system, and install meters.	\$129,100	3.25%, 20 yrs	45	
132	Clark Rural Water System	C462460-01	<i>Problem:</i> the water treatment plant is exceeding its design capacity during peak demand periods. <i>Project:</i> replace the iron/manganese filtration plant with a lime softening plant.	\$1,000,000	3.25%, 20 yrs	5,653	

Priority Points	Community/ Public Water System	Project Number	Project Description	Est. Loan Amount	Expected Loan Rate & Term	Pop. Served	Dis-advan-taged
129	Edgemont	C462216-01	<i>Problem:</i> the city's storage facilities and distribution system is old and in disrepair and has had routine and repeat samples that tested positive for total and fecal coli form; additionally the system is unmetered. <i>Project:</i> replace the existing concrete reservoirs, repair the existing steel reservoir, and install water meters.	\$750,000	2.50%, 30 yrs	867	Yes
125	Mid-Dakota Rural Water System	C462430-01	<i>Problem:</i> the system does not have the treatment capacity to accommodate requests to provide service to new users. <i>Project:</i> expand the capacity of the existing treatment facility from 9.0 MGD to 13.5 MGD.	\$12,000,000	2.00%, 3 yrs	32,000	
118	B-Y Rural Water User District	C462431-02	<i>Problem:</i> potential new users have been identified in the district's service area. <i>Project:</i> construct approximately seven miles of 4 and 6-inch lines to serve 20 additional users in Douglas County.	\$300,000	3.25%, 30 yrs	15,000	Yes
98	B-Y Rural Water User District	C462431-03	<i>Problem:</i> the two current intakes are not large enough to serve the water treatment plant when operating at maximum capacity. <i>Project:</i> construction of a third raw water intake.	\$2,000,000	3.25%, 30 yrs	15,000	Yes
93	Kingbrook Rural Water System	C462432-06	<i>Problem:</i> increased demands within the system have created hydraulic deficiencies within the distribution system. <i>Project:</i> construct approximately 28 miles of 12-inch pipe and make improvements to an existing booster station to improve transmission capabilities.	\$4,200,000	3.25%, 20 yrs	11,000	
92	Morristown	C462366-10	<i>Problem:</i> the water distribution system is in poor condition resulting in numerous water breaks and dead-end lines within the system contribute to water quality problems. <i>Project:</i> replace the entire distribution with 2 and 4-inch PVC water mains.	\$100,000	0%, 30 yrs	82	Yes

Priority Points	Community/ Public Water System	Project Number	Project Description	Est. Loan Amount	Expected Loan Rate & Term	Pop. Served	Dis-advan-taged
84	Canistota	C462226-01	<i>Problem:</i> much of the existing cast iron water mains are corroded with interior encrustations reducing the effective diameter of the mains. <i>Project:</i> replace approximately 3,400 feet of water main on ash Street	\$412,300	3.25%, 30 yrs	700	Yes
84	Faulton	C462217-01	<i>Problem:</i> much of the existing distribution system is cast iron water mains that are in poor condition. <i>Project:</i> install approximately 28,500 feet of PVC water mains to replace the existing cast iron mains and loop several dead-end lines, replace water meters, and purchase a standby generator.	\$1,000,000	3.25%, 30 yrs	785	Yes
81	Aurora-Brule Rural Water System	C462425-01	<i>Problem:</i> the existing raw water intake and pumping system are at capacity and located in an area with unstable soil conditions. <i>Project:</i> construct new intakes, pump station, and raw water reservoir at a new location.	\$3,000,000	3.25%, 30 yrs	5,000	Yes
77	Spearfish Meadows Homeowners Association	C462459-01	<i>Problem:</i> the distribution system consists of lines ranging from ¾-inch to 4-inch in size which results in pressure and supply problems. <i>Project:</i> replace existing distribution system with 4 and 6-inch water lines, replace existing booster pump, install water meters and other miscellaneous improvements.	\$170,000	3.25%, 20 yrs	67	
72	Corson Village Sanitary District	C462423-01	<i>Problem:</i> the distribution system is largely pipe of 2 inches or less and the pump house and chlorination system is in poor condition. <i>Project:</i> replace the distribution system with 6-inch PVC lines and extend a main to connect with the city of Brandon.	\$200,000	3.25%, 20 yrs	45	Survey being undertaken

Priority Points	Community/ Public Water System	Project Number	Project Description	Est. Loan Amount	Expected Loan Rate & Term	Pop. Served	Dis-advan-taged
58	Green Valley Sanitary District	C462251-01	<i>Problem:</i> most residences in the district are served by individual shallow wells for water use and septic systems for wastewater treatment. High groundwater levels and poorly operating septic tanks have led to water quality problems. <i>Project:</i> construct a distribution system and connect to the Rapid City system.	\$500,000	3.25%, 20 yrs	768	
35	Yankton	C462038-03	<i>Problem:</i> low flows and high sediment loads in the Missouri River are causing problems with the water intakes. <i>Project:</i> drill two angle wells to draw water from under the Missouri River.	\$3,500,000	3.25%, 30 yrs	13,528	
34	Parker	C462026-03	<i>Problem:</i> the existing water distribution system consists largely of 4-inch lines and is experiencing substantial water loss. <i>Project:</i> construct phase 4 of a seven-phase project to replace most of the water distribution system.	\$204,000	3.25%, 20 yrs	1,031	
25	Sioux Falls	C462232-10	<i>Problem:</i> Areas within distribution system are aging and in need of replacement <i>Project:</i> replace approximately 7,390 feet of water main in the Western Heights area, approximately 8,160 feet of water main near the air base and replace a pump station and three large diameter valves.	\$7,606,900	2.50%, 10 yrs	123,975	
22	Spearfish	C462030-01	<i>Problem:</i> water demand on the east side of the city has, on occasion, exceeded the capability of existing booster pump and well that serve the area. <i>Project:</i> develop a new well to serve the area.	\$1,300,000	3.25%, 20 yrs	8,606	
21	Box Elder	C462003-01	<i>Problem:</i> the city's three wells are unable to meet peak domestic demand and portions of the distribution system are asbestos-cement and undersized PVC pipe. <i>Project:</i> develop one additional wells and replace the asbestos-cement and undersized PVC pipe within the distribution system.	\$2,000,000	3.25%, 30 yrs	2,841	Yes

Priority Points	Community/ Public Water System	Project Number	Project Description	Est. Loan Amount	Expected Loan Rate & Term	Pop. Served	Dis-advan-taged
20	Sioux Falls	C462232-09	<i>Problem:</i> production of vertical raw water wells Nos. 60, 61, and 62 and horizontal collector well No. 37 has been decreasing. <i>Project:</i> construct a new horizontal collector well to replace vertical wells Nos. 60, 61, and 62 and rehabilitate horizontal collector well No. 37.	\$3,578,750	2.50%, 10 yrs	123,975	
19	Arlington	C462213-01	<i>Problem:</i> portions of the city's water main are cast iron that is old and in poor condition. <i>Project:</i> replace approximately 2-1/2 blocks of water main under Birch and 1 st Streets.	\$190,000	3.25%, 30 yrs	992	Yes
18	Oacoma	C462289-01	<i>Problem:</i> due to the elevations of the city's water storage reservoirs, insufficient pressure occurs in certain locations. <i>Project:</i> construct a 140,000-gallon elevated water storage reservoir and relocate an existing storage reservoir.	\$914,800	3.25%, 20 yrs	390	
18	Warner	C462042-01	<i>Problem:</i> the city's water storage reservoir does not provide adequate storage to meet peak day demand, and the water meters have outlived the useful life expectancy. <i>Project:</i> construct a 75,000-gallon elevated water storage reservoir, and replace water meters.	\$300,000	3.25%, 20 yrs	419	
13	Hurley	C462281-01	<i>Problem:</i> dead-end lines are present in portions of the distribution system. <i>Project:</i> install approximately 3,500 feet of 6-inch water main to provide looping.	\$100,000	3.25%, 20 yrs	426	
10	Elk Point	C462059-05	<i>Problem:</i> the cast iron water mains on Main Street are old and experiencing breaks. <i>Project:</i> replace the existing line with PVC water main in conjunction with a DOT reconstruction project.	\$625,000	3.25%, 20 yrs	1,714	
9	Newell	C462109-01	<i>Problem:</i> portions of the city's distribution system consist of transite and cast iron pipe that is old and in poor condition. <i>Project:</i> replace approximately 1,600 feet of line in conjunction with a DOT project.	\$130,000	2.50%, 30 yrs	646	Yes

Priority Points	Community/ Public Water System	Project Number	Project Description	Est. Loan Amount	Expected Loan Rate & Term	Pop. Served	Dis-advan-taged
9	Waubay	C462025-02	<i>Problem:</i> the city's distribution system is old and in need of replacement. <i>Project:</i> replace 10,950 feet of water line to complete the city's two-phase water distribution system replacement project.	\$1,200,000	2.5%, 30 years	662	Yes
9	Woonsocket	C462138-01	<i>Problem:</i> a portion of the city's distribution system is old and experiencing unacceptable leakage. <i>Project:</i> replace approximately 4,460 feet of asbestos cement pipe and 700 feet of cast iron pipe with PVC to complete a total replacement of the distribution system.	\$390,000	3.25%, 20 yrs	720	
8	Gayville	C462250-01	<i>Problem:</i> much of the existing distribution system consists of cast iron water mains that were installed in 1910. <i>Project:</i> install approximately 17,100 feet of PVC water mains to replace the cast iron mains and loop several dead-end lines.	\$275,000	3.25%, 20 yrs	418	
7	Java	C462350-01	<i>Problem:</i> the city's water distribution system consists of cast iron that is old and in poor condition. <i>Project:</i> install approximately 14,600 feet of PVC water main replace the existing cast iron lines:	\$150,000	3.25%, 30 yrs	197	Yes

ATTACHMENT II - LIST OF PROJECTS TO BE FUNDED IN FISCAL YEAR 2009

Priority Points	Community/ Public Water System	Project Number	Loan Amount	Funding Date	Expected Funding Source	Dis-advantaged?
LOANS EXPECTED						
25	Sioux Falls	C462232-10	\$7,606,900	January 2009	Repayments	
20	Sioux Falls	C462232-09	\$3,578,750	January 2009	UCE	
154	New Underwood	C462257-01	\$165,000	March 2009	Repayments	
125	Mid-Dakota Rural Water System	C462430-01	\$12,000,000	March 2009	2008 & 2009 Cap Grants	
22	Spearfish	C462030-01	\$1,300,000	March 2009	Leveraged Bonds	
84	Canistota	C462226-01	\$412,300	June 2009	Leveraged Bonds	Yes
72	Corson Village Sanitary District	C462423-01	\$200,000	June 2009	Leveraged Bonds	
34	Parker	C462026-03	\$204,000	June 2009	Leveraged Bonds	
18	Oacoma	C462289-01	\$914,800	June 2009	Leveraged Bonds	
18	Warner	C462042-01	\$300,000	June 2009	Leveraged Bonds	
35	Yankton	C462038-03	\$3,500,000	September 2009	Leveraged Bonds	
10	Elk Point	C462059-05	\$625,000	September 2009	Leveraged Bonds	

**ATTACHMENT III
PROGRAM FUNDING STATUS**

Fiscal Years 1997 - 2008

Capitalization Grants	\$99,939,500	
State Match	\$19,987,9000	
Set-Asides	(\$5,607,944)	
Transfer of FY 2002 & 2003 Clean Water Capitalization Grant and State Match	\$15,574,320	
Leveraged Bonds	\$42,504,075	
Excess Interest as of September 30, 2008	\$11,079,976	
Excess Principal Repayments as of Sept. 30, 2008	\$23,048,399	
 Total Funds Dedicated to Loan		 \$206,526,176
 Loans made through September 30, 2008		 <u>(\$204,220,098)</u>
 Balance of funds as of September 30, 2008		 \$2,306,078

Fiscal Year 2009 Projections

Capitalization Grants	\$8,146,000	
State Match	\$1,629,200	
Set-Asides	(\$538,760)	
Projected Excess Principal Repayments	\$6,800,000	
Projected Unrestricted Interest Earnings	\$2,700,000	
Leveraged Bond Proceeds	\$10,000,000	
Arbitrage Rebate Liability	<u>(\$200,000)</u>	
Projected Fiscal Year 2009 Sub-total		<u>\$28,536,440</u>
 Total Funds Available for Loans		 <u><u>\$30,842,518</u></u>
 Loan Amount Identified on Attachment II - List of Projects to be Funded in Fiscal Year 2009		 <u><u>\$30,806,750</u></u>

Administrative Surcharge Funds Available as of September 30, 2008	
Program Income	\$1,494,726
Non-Program Income	<u>\$2,782,804</u>
Total	<u>\$4,277,530</u>
