Re: Dewey-Burdock Project Groundwater Discharge Plan

Dear Matt:

By this letter, Powertech (USA) Inc. submits this Groundwater Discharge Plan application to the South Dakota Department of Environment & Natural Resources requesting authorization to construct and operate land application systems associated with the Dewey-Burdock Project, a proposed in situ uranium recovery (ISR) project to be located in Custer and Fall River counties, South Dakota.

Enclosed please find the following:

- two signed copies of the permit application form,
- two signed copies of the certification of applicant form,
- two signed copies of the consent for inspection form,
- two bound copies of the proposed Groundwater Discharge Plan, and
- eight DVDs containing electronic copies of the proposed Groundwater Discharge Plan.

The primary Powertech (USA) Inc. contacts include Richard Blubaugh, Vice President - Health Safety and Environmental Resources, (303) 790-7528; John Mays, Vice President - Engineering, (303) 790-7528; and Mark Hollenbeck, Project Manager, (605) 662-8308.

Permit coordination and development has been conducted by WWC Engineering of Sheridan, Wyoming. They will be the primary point of contact for responding to technical questions during the review process. Project manager for WWC Engineering is Mr. Jack Fritz, (307) 672-0761 ext. 129.

Powertech (USA) Inc. appreciates the opportunity to submit this permit application and looks forward to working with DENR staff in the near future. If you have any questions, please do not hesitate to contact us at your convenience. Thank you for your time and consideration in this matter.

Respectfully submitted,

Richard Blubaugh
Vice President - Health Safety and Environmental Resources
