**Subject:** Powertech Permit Applications

Dear Mr. Gronlund:

I am writing to request that the hearing for Powertech Uranium's two water permit applications and ground water discharge application be held in late Fall. This will allow me to properly prepare for the hearing and will encourage full involvement by agricultural producers, who are busier over the summer. As someone who is new to this process and who works full-time, I anticipate needing the summer to prepare to fully participate in this complex process.

If you have any questions, please let me know.

Thank you --
