WATER RIGHTS  
PROGRAM

Dear Mr. Gronlund,

I am writing to express my strong opposition to the water permits and discharge for PowerTech, Inc., in Fall River and Custer County.

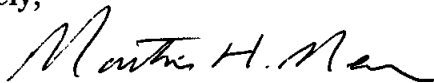

It saddens me that this is necessary and that the State of SD doesn't appear to have the wisdom and/or integrity to investigate, regulate and reject such permits as did Colorado and Virginia.

I have seen the Draft Supplemental Environmental Impact Study submitted by PowerTech and the NRC, and have read in its entirety the thirty two page testimony in response submitted by Robert E. Moran, PhD.

It is quite obvious that there is absolutely no way for PowerTech and/or the NRC to substantiate claims that this can be done without risk to our water resources, and the surrounding environment. Not to mention the sacrilege once again imposed upon Native American sites in the area.

Please include my name as an intervener at the permit application hearing in October.

Sincerely,

Martin H. Meyer
