Comments :

Hello, I'm in favor of using more of the VW Money for charging stations here in South Dakota. I would think this would help travelers using EVs throughout east and west of South Dakota. I do own a Tesla and it's difficult to take longer trips since the main area with charging stations are in Sioux Falls and Rapid City. I also think faster chargers would be better! The Tesla super chargers can keep travelers on the road and make trips seamless using EVs. With more money from the fund we can improve South Dakota's charging infrastructure!
Thanks! Steven Wallert
