Good afternoon Barb

Sorry I've been out of the loop for so long. I don't know if I am too late to make a comment about the VW spending for SD but my passion and concern is always with having the EV chargers to support the future of tourists and residents traveling across our state. Did you get a good response with the current submissions for EV chargers? Something that concerned me about that was, it felt like it required a lot of financial commitment in advance by the company getting it installed on their property.

Thank you for all you are doing.
Sherry Thurston

Dear Interested Parties:

Round 13 bus rebate recipients have been announced for the Clean Diesel Grant Program. The Department will use EPA DERA funds, VW funds from Category 10 (The DERA Option), and Category 2 (Class 4-8 Buses) for the project. Information is available on the Clean Diesel Program website at: <https://denr.sd.gov/des/aq/aadera.aspx>

Reminder: Round Four of the VW Truck Program is open for application through January 29, 2021. Further information is available on the VW Truck Program website at: <https://denr.sd.gov/des/aq/aaVWtrucks.aspx>

These updates have also been added to the Volkswagen Settlement website at: <https://denr.sd.gov/des/aq/aaVW.aspx>

Thank you for your interest in these programs. Please feel free to pass this information to others that may be interested.
