Making Brownfields Programs Work for Your Community

Free Brownfield Webinar, May 6, 2014

Hello, Community Leaders, Planners, and Consultants!

You are invited to attend a free brownfields webinar on May 6, 2014 which is being co-hosted by each of South Dakota's Planning Districts, the Department of Environment and Natural Resources, and the Technical Assistance to Brownfields Program (TAB) at Kansas State University.

Does your community have an abandoned building, old gas station or other potentially contaminated building that is impeding your future growth? This webinar is designed to help you and your community find answers to questions such as: What is a brownfield site and why would a community want to assist in their redevelopment? How should a town or city approach the redevelopment process in a matter that limits their liability? What programs are out there to assist local government in assessment, cleanup and redevelopment?

Who should attend? Local and regional government officials, not-for-profit economic and community development organizations and anyone interested in learning about brownfields or about financial resources for local redevelopment.

For more information contact:

Kim McIntosh, DENR, kim.mcintosh@state.sd.us, 605-773-3296

Mark Walker, KSU TAB, mewalker@ksu.edu, 303-902-1441

To register, go to the webinar webpage at: <https://www.ksutab.org/education/webinars/>

Please share this information with your colleagues, clients, and feel free to forward this information to any listservs or announcement postings you have to help get the word out.

We hope to see you there!
