

SOME Common Tier II Reportable Products¹ and Reporting Thresholds²

NOTE - This is not a Complete List!!

NOTE - Listed thresholds apply only if you are reporting product mixtures as a whole (rather than reporting separately for each hazardous ingredient in the products you store). Thresholds differ if you choose to report by ingredient.

PRODUCT/TRADE NAME	THRESHOLD
2,4-D Herbicide	10,000 Pounds
Aatrex	10,000 Pounds
Acetylene	10,000 Pounds
Aldrin	500 Pounds
Ammonium Sulfate ¹	10,000 Pounds
Anhydrous Ammonia ¹	500 Pounds
Antifreeze	10,000 Pounds
Argon	10,000 Pounds
Atrazine Herbicide	10,000 Pounds
Aviation Fuel	10,000 Pounds
Aztec Insecticide	10,000 Pounds
Banvel Herbicide	10,000 Pounds
Battery Acid (Sulfuric Acid)	500 Pounds
Bicep Herbicide	10,000 Pounds
Bronate	10,000 Pounds
Buccaneer Herbicide	10,000 Pounds
Calcium Carbonate	10,000 Pounds
Callisto Herbicide	10,000 Pounds
Captan	10,000 Pounds
Carbon Dioxide	10,000 Pounds
Cement ¹	10,000 Pounds
Chlorine	100 Pounds
Clarity Herbicide	10,000 Pounds
Cornerstone Herbicide	10,000 Pounds
Counter (Terbufos)	100 Pounds
Define Herbicide	10,000 Pounds
Dicalcium Phosphate	10,000 Pounds
Dieldrin Insecticide	10,000 Pounds
Diesel fuel (combine all grades) stored in ASTs ⁴	10,000 Pounds
Diesel fuel (combine all grades) stored in USTs at facilities that do not have retail sales ⁴	10,000 Pounds
Diesel fuel (combine all grades) stored in USTs at a retail fuel station ⁴	100,000 Gallons
Dual (Metolachlor)	10,000 Pounds
Dyfonate (Fonophos)	500 Pounds
Ethanol	10,000 Pounds
Extreme Herbicide	10,000 Pounds
Fertilizer Ingredients (products used at your facility to make a custom blend)	10,000 Pounds
Force Insecticide	10,000 Pounds
Fuel Oil (generator fuel, etc.)	10,000 Pounds
Furdan (Carbofuran) ³	10 Pounds/500 Pounds
Gasoline (combine all grades) stored in ASTs ⁴	10,000 Pounds
Gasoline (combine all grades) stored in USTs at facilities that do not have retail fuel sales ⁴	10,000 Pounds
Gasoline (combine all grades) stored in USTs at a retail fuel station ⁴	75,000 Gallons
Gopha-Rid (Zinc Phosphide)	500 Pounds
Gramoxone (Paraquat) ³	10 Pounds/500 Pounds
Grazon Herbicide	10,000 Pounds
Harness Herbicide	10,000 Pounds
Heating fuel	10,000 Pounds
Hydrogen Chloride	500 Pounds
Kerosene	10,000 Pounds
Lannate-Nudrin (Methomyl)	500 Pounds
Liberty Herbicide	10,000 Pounds
Lorsban Insecticide (Dursban) - (chlorpyrifos)	10,000 Pounds
Lumax Herbicide	10,000 Pounds

NOTE - This is not a Complete List!!

NOTE – Listed thresholds apply only if you are reporting product mixtures as a whole (rather than reporting separately for each hazardous ingredient in the products you store). Thresholds differ if you choose to report by ingredient.

PRODUCT/TRADE NAME	THRESHOLD
LV-4	10,000 Pounds
Magnesium Oxide	10,000 Pounds
Methyl Ethyl Ketone	10,000 Pounds
Namacur (Fenamiphos) ³	10 Pounds/500 Pounds
Nitric Acid	500 pounds
Namacur (Fenamiphos) ³	10 Pounds/500 Pounds
Nitric Acid	500 pounds
Nitrogen	10,000 Pounds
NUFOS	10,000 Pounds
Oil (Motor oil, lubricants, hydraulic oil, etc.)	10,000 Pounds
Outlook Herbicide	10,000 Pounds
Oxygen ¹	10,000 Pounds
Paint - most common paints ¹	10,000 Pounds
Parathion	100 Pounds
Paraquat Dichloride ³	10 Pounds/500 Pounds
Phosphoric Acid	10,000 Pounds
Phostoxin (Gastoxin, Fumatoxin) - (Phosphine)	500 Pounds
Potassium Chloride	10,000 Pounds
Potassium Permanganate	10,000 Pounds
Produced Hydrocarbons (Crude Oil)	10,000 Pounds
Propane	10,000 Pounds
Propylene	10,000 Pounds
Prowl Herbicide	10,000 Pounds
Ramik (diphacinone)	10 Pounds/500 Pounds
Rat Bait (Strychnine) ³	100 Pounds/500 Pounds
Roundup Herbicide	10,000 Pounds
RT 3 Herbicide	10,000 Pounds
Seven (Carbaryl)	10,000 Pounds
Sodium Chloride	10,000 Pounds
Sulfuric Acid	500 Pounds
Sonalan Herbicide	10,000 Pounds
Surpass Herbicide	10,000 Pounds
Thimet (Phorate)	10 Pounds
Thiodan (Endosulfan) ³	10 Pounds/500 Pounds
Toluene	10,000 Pounds
Touchdown Herbicide	10,000 Pounds
Treflan Herbicide	10,000 Pounds
Warfarin	500 pounds
Widematch Herbicide	10,000 Pounds

¹ Certain products are exempted from reporting depending upon packaging or use, etc. See the "Exclusions" section of this guide.

² When reporting chemical product mixtures, you have the option of reporting the weight of the entire mixture or calculating and reporting separately, for the weight of each hazardous ingredient.

³ The lower threshold is for liquids & powders with a particle size of <100 microns. The higher threshold is for all other formulations.

⁴ AST refers to Aboveground Storage Tanks and UST refers to Underground Storage Tanks. The threshold for biodiesel is the same as for regular diesel. The threshold for 10% ethanol blends with is the same as for regular gasoline.
