MINERALS & MINING PROGRAM

No road will be constructed for the express purpose of accessing the active mining areas. The trail mentioned in your letter of 26 March 2014 (i.e. road installed last year), was a preexisting trail. Some landscaping was conducted to fill an excavation by a previous miner. All disturbed areas have been contoured to grade and fully reclaimed and seeded. A silt fence has been placed between the trail and Rapid Creek to contain any erosion. Any further seeding will be applied as needed.

ARSD 74:29:03:03 (3 and 5):

Site Plan (Exhibit D) has been modified to indicate that containment berms will be "sediment and erosion controls as necessary".

ARSD 74:29:03:03 (6):

I have posted a \$2500.00 reclamation bond for a small scale mining permit.

ARSD 74:29:-3:03 (7):
