- 2.14 **[ALL]** Provide documentation showing whether or not the site is located within a 100-year floodplain.

3.0 Permit Fee

Each request for authorization or application for an individual permit must be accompanied by a fee based on the annual tonnage accepted in accordance with the following fee schedule:

Type I	Facilities receiving more than 150,000 tons per year	\$ 5,000
Type II	Facilities receiving between 5,000 and 149,999 tons per year	\$ 500
Type III	Facilities receiving between 500 and 4,999 tons per year	\$ 250
Type IV	Facilities receiving less than 500 tons per year	No Fee

Notes:

1. The general permit is applicable only to facilities handling less than 25,000 tons per year.
2. The tonnage of transfer station wastes can be estimated as 0.7 tons per person per year.

South Dakota Codified Law Section 34A-6-1.10 provides:

“Responsibility and liability of owner or operator. *The owner or operator of a solid waste disposal facility that is regulated under §§ 34A-6-1.1 to 34A-6-1.38, inclusive, is responsible in perpetuity for the solid waste and liable in perpetuity for any pollution or other detrimental effect caused by the solid waste. No person may dispose of solid waste other than mine wastes in this state until the owner or operator of the solid waste disposal facility executes an agreement with the board acknowledging such perpetual responsibility and liability for the solid waste.”*

By signing this permit application, the signatory acknowledges that they have read and understand the information contained in the foregoing application and attachments, and to the best of their knowledge, the information is true and accurate. In addition, pursuant to SDCL 34A-6-1.10, I hereby agree to and accept perpetual responsibility and liability for the solid waste disposal at this facility.

All applications filed pursuant to Titles 34A and 45 shall include a certification, sworn to under oath and signed by the applicant, that he is not disqualified by reason of this section from obtaining a permit. In the absence of evidence to the contrary, that certification shall constitute a prima facie showing of the suitability and qualification of the applicant. If at any point in the application review, recommendation or hearing process, the secretary finds the applicant has intentionally made any material misrepresentation of fact in regard to this certification, consideration of the application may be suspended and the application may be rejected as provided for under this section.

Applications rejected pursuant to this section constitute final agency action upon that application and may be appealed to circuit court as provided for under chapter 1-26.”

I certify pursuant to 1-40-27, that as an applicant, officer, director, partner, or resident general manager of the activity or facility for which the application has been made that I; a) have not intentionally misrepresented a material fact in applying for a permit; b) have not been convicted of a felony or other crime of moral turpitude; c) have not habitually and intentionally violated environmental laws of any state or the United States which have caused significant and material environmental damage; (d) have not had any permit revoked under the environmental laws of any state or the United States; or e) have not otherwise demonstrated through clear and convincing evidence of previous actions that I lack the necessary good character and competency to reliably carry out the obligations imposed by law upon me. I also certify that this application does not substantially duplicate an application by the same applicant denied within the past five years which denial has not been reversed by a court of competent jurisdiction. Further;

“I declare and affirm under the penalties of perjury that this claim (petition, application, information) has been examined by me, and to the best of my knowledge and belief, is in all things true and correct.”

Source Reduction and Recycling Plan

In accordance with South Dakota Codified Laws (SDCL) §34A-6-74 through §34A-6-78, municipalities or other political subdivisions responsible for solid waste management are required to submit a comprehensive solid waste source reduction and recycling plan to the department prior to permit renewal or issuance for any permit application.

For compliance with the sections listed above your facility must also be in compliance with SDCL §34A-6-67. SDCL §34A-6-67 bans certain materials from being landfilled in South Dakota. These banned materials are lead-acid batteries, yard waste, white goods and used oil. The general permit or an individual permit for your facility limits what materials may be accepted and how those materials may be handled.

This document, when completed along with a solid waste permit application will meet the requirements of SDCL §34A-6-74 through §34A-6-78. Please provide the requested information for the materials listed below:

Material	Tonnage Recycled since renewal/issue*	Recycling Company
1. White Goods:	_____	_____
2. Yard Waste:	_____	_____
3. Waste Tires:	_____	_____
4. Other:	_____	_____

* Estimated weights or units is acceptable

ATTACHMENT
South Dakota Codified Law

§34A-6-67. Landfill waste reduction targets -- Implementation dates. In order to achieve the waste reduction goals provided for under §34A-6-60, no landfill in the state may accept yard waste, lead acid batteries, waste motor oil, or white good appliances for disposal. Office and computer paper, old newspaper, magazines, telephone books, corrugated cardboard, other marketable paper products, containers made from plastic, aluminum and steel, and other municipal solid waste materials that are diverted from landfilling using appropriate methods and technology count toward the waste reduction goal. Appropriate methods and technology includes recycling facilities.

§34A-6-74. Filing of solid waste source reduction and recycling plan -- Department review and aid in development -- Hearings -- Updating of plans. Every municipality or other political subdivision responsible for solid waste management shall file with the department by January 1, 1994, a comprehensive solid waste source reduction and recycling plan detailing the method by which the municipality or other political subdivision responsible for solid waste management will comply with the requirements of §34A-6-67 to establish and implement a comprehensive solid waste source reduction and recycling program for its residents. For the purposes of this section, any public or private entity managing the solid waste stream for a municipality or county shall file one comprehensive plan on behalf of its members with the filing requirements of this section. The department shall review each comprehensive plan submitted and may reject, suggest modifications to or approve the proposed plan. The department shall aid in the development of comprehensive plans for compliance with this section and shall make available appropriate forms for the submission of comprehensive plans. The department may hold hearings for the purpose of implementing this section. The comprehensive plan required in this section shall be updated and submitted to the department for approval five years after its most recent approval. The department may, consistent with rules promulgated by the board pursuant to chapter 1-26, require the filing or updating of a plan at other times.

§34A-6-75. Plan required for issuance of new or renewed permit. Beginning July 1, 1994, no new permit for a solid waste disposal facility may be issued and no existing permit reissued or renewed unless the permit applicant, in conjunction with all local units of government whose residents, businesses or institutions generate solid waste to be stored or disposed of in the facility, has filed a plan as required in §34A-6-74.
