

NOTICE OF SHUTOFF ORDER

July 20, 2012

TO: <Whitewood Creek Water Right Holder>

FROM: GARLAND ERBELE, Chief Engineer
SD DENR Water Rights Program

SUBJECT: Shutoff Order for Whitewood Creek Water Rights

Shutoff Order for Water Right Nos. «PERMIT_NO»

Flow in Whitewood Creek has dropped to the point where domestic use of water, which includes livestock watering from the river, has become a concern. Therefore to protect domestic use, the department is issuing shutoff orders for Whitewood Creek. Effective immediately, no diversions of water from Whitewood are authorized under your water rights.

This order will be rescinded as soon as conditions improve. If conditions do not improve, this order will remain in effect until **December 31, 2012**.

The USGS maintains a website where you can view real-time stream flow measurements at several sites along the river, the web address is:

<http://waterdata.usgs.gov/sd/nwis/rt>

I am asking for your cooperation in complying with this shutoff order. The ongoing drought is creating hardship for all the water right holders along the creek.

If you have any questions, please contact Mark Rath (605- 773-3352) or Aaron Tieman (605-394-2229) with the Water Rights Program. Thank you.
