**Gov. Daugaard Announces \$23,900 for Seneca Project**

PIERRE, S.D. – Gov. Dennis Daugaard says the state Board of Water and Natural Resources has approved a \$23,900 Solid Waste Management Program grant to Seneca for dump site cleanup, remediation and closure.

The grant will be administered through the Department of Environment and Natural Resources.

“I am pleased to announce that Seneca will receive this assistance,” said Gov. Daugaard. “This will help the town properly close its disposal site in an environmentally safe manner.”

Seneca seeks to close its disposal site. The town no longer has the capacity to operate or accept waste materials at the site.

The estimated cost of the project is \$29,880.

The Solid Waste Management Program provides grants and loans for solid waste disposal, recycling and waste tire projects. The Legislature annually appropriates dedicated funding for the Solid Waste program through the Governor’s Omnibus Water Funding Bill.

The board met today over the Digital Dakota Network.
