Gov. Noem Announces \$14.946 Million for Huron Wastewater Treatment Facility Improvements

PIERRE, S.D. – Gov. Kristi Noem says the Board of Water and Natural Resources has approved a \$14,946,000 Clean Water State Revolving Fund loan for the City of Huron to make improvements to its wastewater treatment facility.

The loan will be administered through the Department of Environment and Natural Resources. Terms are 2.125 percent for 30 years.

“I am pleased to announce that the City of Huron will receive this assistance,” said Gov. Noem. “The funding will help the city make needed upgrades to its wastewater treatment facility to better serve its customers and protect the environment.”

The improvements include rehabilitation of the pretreatment facility and construction of new sequencing batch reactors (SBR) near the existing SBR site. The estimated completion date is December 2021.

The loan will cover the estimated cost of the project.

The State of South Dakota and the U.S. Environmental Protection Agency fund the Clean Water State Revolving Fund Program, which provides low-interest loans for wastewater, storm water and nonpoint source projects.

The board met today via remote video connection.
