DENR Announces \$49,900 Grant for Huron Recycling Project

PIERRE, S.D. – Today, the South Dakota Department of Environment and Natural Resources (DENR) announced the state Board of Water and Natural Resources has approved a \$49,900 grant for the City of Huron to purchase a new recycling trailer.

The \$49,900 Solid Waste Management Program grant will be combined with local funding to complete the project. The grant will be administered through the Department of Environment and Natural Resources.

The new walking floor trailer will replace the current trailer that has structural damage and is no longer usable. In addition to meeting the community's recycling needs, the new trailer makes it easier to transport recycled material from Huron to Sioux Falls.

The Solid Waste Management Program provides grants and loans for solid waste disposal, recycling, and waste tire projects. The Legislature annually appropriates dedicated water and waste funding for the Consolidated and Solid Waste programs through the Governor's Omnibus Water Funding Bill.

The board met today via remote video connection.
