MISSION

The mission of the South Dakota Clean Water State Revolving Fund loan program is to capitalize the fund to the fullest; maintain, restore and enhance the chemical, physical and biological integrity of the state's waters for the benefit of the overall environment; protect public health; and promote the economic well-being of the citizens of the state of South Dakota.

FEDERAL FISCAL YEAR

2000

ANNUAL REPORT
I. INTRODUCTION

The state of South Dakota herewith submits its Annual Report for Federal Fiscal Year (FFY) 2000 (October 1, 1999 through September 30, 2000). This report describes how South Dakota has met the goals and objectives of the Clean Water State Revolving Fund (SRF) Loan Program as identified in the 2000 Intended Use Plan, the actual use of funds, and the financial position of the Clean Water SRF.

The Annual Report consists of three main sections. The Executive Summary section provides an overview of the FFY 2000 activity. The next section addresses the Goals and Objectives the state of South Dakota identified in its 2000 Intended Use Plan and the steps that have been taken to meet these measures. The Details of Activities section provides information on the financial status of the program, the financial assistance provided during FFY 2000, and compliance with the EPA grant and operating agreement conditions. The Annual Report is followed by a brief history of the Clean Water SRF program since its inception.

The program history is followed by the Clean Water SRF Loan Portfolio. The loan portfolio provides information on the interest rates, loan amounts, projects, and loan terms. Exhibits I through VII provide detailed financial and environmental program information. Exhibits VIII through XII are the unaudited financial statements of the Clean Water SRF program, as prepared by the Department of Environment and Natural Resources staff. Finally, Addendum I is the Intended Use Plan for Federal Fiscal Year 2001. The primary purpose of the Intended Use Plan is to identify the proposed annual intended use of the amounts available to the Clean Water State Revolving Fund.
II. EXECUTIVE SUMMARY

South Dakota’s Clean Water SRF Program received a federal capitalization grant of $6,555,200 for Federal Fiscal Year 2000. These funds were matched by $1,311,040 in state funds.

Eight communities entered into binding commitments with the conservancy district totaling $11,824,004 in loans for the construction of wastewater treatment, sanitary sewer collection, and storm sewer projects. Of this amount $2,156,803 was from principal repayment funds. A breakdown of the loans made during FFY 2000 are detailed in Table 1.

**TOTAL**                                                                                                      $11,824,004

Loan disbursements from the program to the various recipients totaled $9,350,601. Loan repayments to the program totaled $6,915,836. Of this amount, $4,640,046 was for principal, $1,708,657 was for interest, and $567,133 was for administrative surcharge.

The Clean Water SRF program forms are incorporated into the Department of Environment and Natural Resources' *State Water Planning Process* document. This document contains application forms and instructions for the State Water Plan and various funding programs.

The Board of Water and Natural Resources annually sets the interest rates for the federal fiscal year. In determining the rates the Board reviews: 1) the current market rates, 2) rates secured on state issued matching funds, and 3) current demand for SRF funds.

The Board reviewed rates in the fall of 1999. The Board determined that the current market rate for South Dakota communities would range between 5.04% and 5.64% for a 10 to 20 year bond issue, which is 0.3% to 0.5% higher than the previous year. The current Rural Development rate ranged from 4.50% to 5.125%. The current average rate on the Bond Buyers Index was 5.83%, which was an increase of 0.6%.
The Board reviewed the available funds and program demand. Anticipated Clean Water SRF funds available during FFY 2000 is $24,977,425, with estimated loan demand of $48,164,000.

The loan rates for FFY 1999 were 4.50% for a 10-year term, 4.75% for a 15-year term, and 5.00% for a 20-year term. After reviewing the required criteria, the Board retained these rates for FFY 2000. These rates include a 1.00% Administrative Surcharge Fee. During FFY 2000, the Clean Water SRF program received $567,133 in surcharge revenues. Administrative expenses paid from the Administrative Surcharge fund in FFY 2000 totaled $304,709 and are detailed in Table 2.

$304,709.44

Since the onset of the Program in 1988, 115 loans have been awarded. The projects associated with 100 loans are fully constructed or essentially complete and in operation. The following three projects initiated operations this past year: Harrisburg (01), Britton (01), and Valley Springs (01). Ninety-two loans are currently in repayment, and nine loans have been repaid in full.
III. GOALS AND OBJECTIVES

A. Short-term Goals and Objectives

In its 2000 Intended Use Plan, the state of South Dakota identified one short-term goal to be implemented and three objectives to be accomplished. The state has made significant progress toward successful completion of its short-term goal and objectives.

GOAL: To fully capitalize the fund.

As of September 30, 2000, South Dakota has made binding commitments to fully utilize its entire capitalization awards and associated state matching funds.

OBJECTIVE: Ensure the technical integrity of the Clean Water SRF projects through the review of planning, design, plans and specifications, and construction activities.

Each Clean Water SRF application is assigned to an engineer and is followed through by that engineer until project completion and initiation of operations. Plans and specifications and facilities plans are reviewed and approved by the Department of Environment and Natural Resources. Pre-construction, initial, interim, and final construction inspections are conducted to ensure each project's technical integrity.

OBJECTIVE: Ensure compliance with all pertinent federal, state, and local water pollution control laws and regulations.

The state works with all pertinent federal, state, and local agencies to ensure compliance.

OBJECTIVE: Obtain maximum capitalization of the funds for the state in the shortest time possible.

The state applied for its capitalization grants as soon as the awards were announced, and state matching funds were in place prior to receiving the grants. Loans are awarded by assessing the following criteria: (1) the availability of funds in the Clean Water SRF program; (2) the applicant’s need; (3) violation of health or safety standards; and (4) the applicant's ability to repay. Loans are usually awarded within four to six weeks after receiving the application. South Dakota has not reverted any capitalization grant funds due to the eight-quarter time limit. Funds are usually awarded within one year of receiving each capitalization grant.

B. Long-term Goals and Objectives

In its 2000 Intended Use Plan, the state of South Dakota identified two long-term goals and two objectives to be accomplished.
GOAL: To fully capitalize the Clean Water SRF.

The state has received and expended each capitalization grant in the required time period and has had state match moneys available for each capitalization grant. As of September 30, 2000, South Dakota has made binding commitments to fully utilize its entire capitalization award and associated state matching funds.

GOAL: Maintain or restore and enhance the chemical, physical, and biological integrity of the state’s waters for the benefit of the overall environment, the protection of public health, and the promotion of economic well-being.

The state has awarded 115 loans to 59 entities to assist with construction of wastewater, storm sewer, and nonpoint source projects.

OBJECTIVE: Maintain a permanent, self-sustaining Clean Water SRF program that will serve in perpetuity as a financing source for wastewater treatment works projects and water pollution control activities, including nonpoint source and groundwater protection projects.

By ensuring that all loans are made to financially sound and responsible borrowers, the Clean Water SRF program will serve in perpetuity for South Dakota’s wastewater, storm sewer, and nonpoint source projects.

OBJECTIVE: Fulfill the requirements of pertinent federal, state, and local laws and regulations governing water pollution control activities, while providing the state and local project sponsors with maximum flexibility and decision making authority regarding such activities.

The state has tailored its Handbook of Procedures to be customer service oriented and user friendly for Clean Water State Revolving Fund Loan Program recipients. The handbook also allows for maximum program flexibility while continuing to maintain sufficient state oversight of the program’s activities.

IV. DETAILS OF ACTIVITIES

A. Fund Financial Status

1. Binding Commitments

In order to provide financial assistance for Section 212 (wastewater and storm water) and nonpoint source projects, the state entered into nine binding commitments totaling $11,824,004. Exhibit I lists the recipients of these Clean Water SRF loans. Figure 1 shows the total amount of binding commitments made by year.
FIGURE 1
BINDING COMMITMENTS MADE BY YEAR

Federal Fiscal Year

Dollars

2. Sources of Funds
During FFY 2000, the state was awarded a $6,555,200 federal capitalization grant that was matched by $1,311,040 in state funds. Exhibit III and Figure 2 show the annual allocation and source of Clean Water SRF funds.

3. Revenues and Expenses

Fund revenues consisted of interest earned on loans to communities, cash and investments, the special reserve account, and administrative expense surcharge payments received from each borrower. These earnings totaled $4,954,726. Fund expenses included administration expenditures, interest payable on bonds, and the amortization of each bond's issuance cost. These expenses totaled $1,266,293. Additionally, $21,969.73 was transferred out to the DENR indirect cost pool. The Statement of Income and Retained Earnings is shown on Exhibit XI.

4. Disbursements and Guarantees

There were no loan guarantees during Federal Fiscal Year 2000.

5. Findings of the 1999 Audit

The Clean Water SRF program was audited by the South Dakota Department of Legislative Audit for state fiscal year 1999 (July 1, 1998, through June 30, 1999). The audit did not contain any written findings or recommendations.

Region VIII conducted its annual review of the South Dakota Clean Water SRF program. A final report was received in August 2000. EPA recommended that the program use the principal repayments for new project activity and also recommended the department disclose information regarding the administrative surcharge in the Intended Use Plan and the Annual Report. The department’s formal response to these recommendations is to evaluate and incorporate the repayment funds into future program activities and to include administrative surcharge information in future Intended Use Plans and Annual Reports.

B. Assistance Activity

Exhibits I through VII illustrate the assistance activity of the Clean Water SRF in Federal Fiscal Year 2000.

Exhibit I shows the recipients that received Clean Water SRF loans during Federal Fiscal Year 2000. All nine loans were for Section 212 (wastewater and storm water) projects.

Exhibit II lists the assistance amount provided to each project by needs category.
Exhibit III lists the total Clean Water SRF dollars available, broken down by fiscal year, capitalization amounts, and state match amounts.

Exhibit IV lists each Clean Water SRF loan and its source of funding.

Exhibit V lists the cash draws and the projects or administrative assistance for which they were made.

Exhibit VI lists the estimated and actual cash disbursement schedule from the federal Letter of Credit (LOC) for FFY 2000. The estimated schedule was agreed upon by the state and EPA in the 2000 Annual Workplan.

Exhibit VII lists the environmental review and land purchase information for the loans made in FFY 2000.

C. Provisions of the Operating Agreement / Conditions of the Grant

The state of South Dakota agreed to 20 conditions in the Operating Agreement and Capitalization Grant Agreement. The following 18 conditions have been met and need no further description:

- Agreement to Accept Payments
- Cash Draws for Clean Water SRF Program Separate
- Prior Incurred Costs Not as State Match
- Revenues Dedicated for Repayment of Loans
- Procurement Actions - 40 CFR Part 31
- Administrative Surcharge
- State Match
- Cash Draw Schedule
- Anti-Lobbying
- Expenditure of State Matching Funds
- Deposit of State Matching Funds with Federal Moneys
- Binding Commitment Ratio
- Timely and Expeditious Use of Funds
- No Transfer of Title II Funds
- Conduct Environmental Reviews
- Eligibility of Storm Sewers
- Clean Water SRF Contains an 83.33% Federal and 16.67% State Split
- State Projects to Draw $6.56 Million of FFY 2000 Funds in FFY 2001 and FFY 2002 as outlined in the payment schedule of the FFY 2000 Capitalization Grant application
The following two conditions are described in detail below:

   The state and EPA have agreed on "fair share" goals of 1% MBE and 3% WBE. The actual MBE/WBE participation achieved for FFY 2000 was 1.5% MBE and 3.1% for WBE.

2. Prior to executing binding commitments on Clean Water SRF projects, the Regional Administrator must certify project compliance with Title VI of the Civil Rights Act.

   The eight loan recipients all submitted project certification forms (EPA 4700-4) to DENR, who in turn submitted these forms to EPA for concurrence.

V. PROGRAM CHANGES

2000 Intended Use Plan

The Annual Report contains the 2001 Intended Use Plan as approved by the Board of Water and Natural Resources on November 8, 2000. The 2001 Intended Use Plan is included in the Annual Report as Addendum I starting on page 59.
SOUTH DAKOTA
CLEAN WATER STATE
REVOLVING FUND LOAN
PROGRAM HISTORY
INITIATION OF THE PROGRAM

The State Water Pollution Control Revolving Loan Fund, also known as the Clean Water State Revolving Fund Loan Program (SRF), is a low interest loan program to finance the construction of wastewater facilities, storm sewers, and non-point source pollution control projects. The program was created by the 1987 Clean Water Act amendments. Funds are provided to the states in the form of capitalization grants awarded annually through the United States Environmental Protection Agency. The federal capitalization grants are matched by state funds at a ratio of 5:1.

The 1988 South Dakota Legislature authorized the State Water Pollution Control Revolving Loan Fund program. Additionally, the legislature appropriated $1,200,000 and directed the South Dakota Conservancy District to administer the program.

CAPITALIZATION GRANTS

Since 1988, the conservancy district has received twelve capitalization grants totaling $82,783,100. In order to receive each of the capitalization grants, the conservancy district must have state matching funds in place equal to at least 20% of each grant. To meet this requirement, the conservancy district used the state appropriation as well as issuing revenue bonds to provide for the required $16,556,620 in state matching funds. Exhibit 3 shows the total amount of capitalization grant and state match by year.

STATE MATCHING FUNDS

In 1989, $5,875,000 in revenue bonds were issued with a Aaa rating from Standard & Poor's Ratings Corporation (S & P). This bond issue was insured by Capital Guaranty Insurance Company.

In 1992, the district issued $4,180,000 in revenue bonds without insurance and received a BBB rating by S & P. However, an annual report of cash flow projections was required to be submitted, and approximately 70% of the Clean Water SRF loan portfolio was required to be rated BBB or better by the rating agency.

In 1994, $10,220,000 in revenue bonds were issued as an advanced refunding of the two prior outstanding issues plus additional matching funds. The program raised its rating to an A. Moody's Investors Service was the rating agency for this issue. No bond insurance was obtained, no cash flow report was required, and no loan applicants had to be rated. The advance refunding provided considerable cost savings by securing a lower interest rate, decreasing the administration of the program, and deleting numerous accounts. Bond proceeds were used to purchase government securities to redeem the Series 1989 and Series 1992 bonds on their first optional call date at par. The Series 1989 bonds were called on August 1, 1996. The Series 1992 bonds will be called on August 1, 2002.
In 1995, $7,970,000 in revenue bonds were issued with an upgraded rating of A1 by Moody's Investors Service. A portion of the Series 1995A bonds were used to provide matching funds for the 1995 and 1996 federal capitalization grants.

In 1996, the district issued $2,770,000 in revenue bonds. The bonds received an A1 rating by Moody’s Investors Service. The Series 1996A bonds were issued to provide match for part of the 1996 federal capitalization grant as well as the 1997, 1998, and 1999 capitalization grants.

The entire program was upgraded to a Aa3 rating by Moody’s Investors Service in June 1998.

LEVERAGED PROGRAM BONDS

Included in the Series 1995A bond issue was $4,500,000 in program bonds. These program bonds were leveraged to provide additional loan funds to communities. These funds were loaned to the city of Yankton in 1998 at 6% for 20 years.

PRINCIPAL REPAYMENT LOANS

The Clean Water SRF program is intended to last in perpetuity. As borrowers repay their loans, the principal repayments are then available to be loaned out to other communities. The first principal repayment loan was awarded to Watertown in November of 1995. Eventually, the state will no longer receive federal capitalization grants, and all loans will be made from the principal repayments of other borrowers.

TRUSTEE

The First National Bank in Sioux Falls has been the trustee since the onset of the program in 1989. The trustee manages and invests funds and accounts for the Clean Water SRF Program including the Series 1992 escrow, issues amortization schedules, disburses loan funds, and accepts all repayments from each of the program's 115 loans.

BOND COUNSEL

UNDERWRITER

EPA REGION VIII

Region VIII of the Environmental Protection Agency oversees the South Dakota Clean Water State Revolving Fund Program. EPA assists the state in securing capitalization grants and guides the conservancy district in its administration of the program.

CW SRF Loan Terms by % of Loan Portfolio ($105 Million)

- 10-Year Term ($33,654,209.78) 32.0%
- 15-Year Term ($19,517,680.71) 18.6%
- 20-Year Term ($51,865,345.58) 49.4%
Loans approved during federal fiscal year 2000 are designated by the year 2000 written directly beside the loan recipients' names and italic lettering within the paragraph.

**AURORA (2000)** - Aurora received a $410,000 loan at 5% interest for 20 years. The project is to upgrade its wastewater interceptors.

**BELLE FOURCHÉ** - The city of Belle Fourche has received two loans totaling $517,422. The first loan of $253,000 was at a rate of 3% for 20 years. It was used to construct sanitary sewer lines and manholes. The second loan of $264,422 was used to upgrade the city's primary sanitary forcemain which had deteriorated. This loan is at 4.5% for a 10-year term.

**BERESFORD (2000)** - The city of Beresford received a loan in the amount of $1,150,000 to improve sanitary sewer and storm sewer lines in conjunction with a South Dakota Department of Transportation street reconstruction project. The loan is at 4.5% interest for a 10-year term.

**BOX ELDER** - Box Elder utilized a $648,600 Clean Water SRF loan to refinance existing sewer debt incurred to expand its treatment facility. The term of the loan is for 20 years at a rate of 3%.

**BRANDON** - The city of Brandon used two Clean Water SRF loans totaling $631,018. The first loan of $105,000 was for a storm drainage project. The second loan of $526,018 was for the construction of a forcemain to convey partially treated wastewater from the Brandon wastewater treatment facility to the Sioux Falls wastewater treatment plant. This loan also financed the associated pumping station and some minor improvements to the existing treatment facility. Both loans are for 10-year terms at an interest rate of 3%.

**BRIDGEWATER** - The city of Bridgewater received a loan for $90,328 to construct storm sewer along the north and east side of the city to connect to an existing inlet basin. The 20-year loan is at 5.25%.

**BRITTON** - The city of Britton received a Clean Water SRF loan for $515,715. This loan financed sanitary and storm sewer improvements. The loan is for a 15-year term at an interest rate of 4%.

**BROOKINGS** - The city of Brookings received a loan for $188,065 at an interest rate of 4% for 15 years. The loan financed the construction of a new interceptor.

**CANTON** - The city of Canton received a Clean Water SRF loan for $515,715. This loan financed sanitary and storm sewer improvements. The loan is for a 15-year term at an interest rate of 4%.

**CHAMBERLAIN** - Chamberlain received two loans at 3% for 10 years totaling $615,500. The loans were used to rehabilitate sanitary sewer lines and construct storm sewer lines under two major streets in the city. Both of these loans have been repaid in full. The city received a third loan for $2,700,000 at 5.25% for 20 years. The loan was used for a major renovation to the city’s
wastewater treatment facility. The city also received a fourth loan for $450,000 at 5.25% for 20 years. The loan was used to expand sewer service into a newly annexed area of town.

CLEAR LAKE - The city of Clear Lake used a $79,537, 4%, 15-year loan to construct a new wastewater treatment facility. The facility consisted of the construction of two new wastewater treatment stabilization ponds and the conversion of the existing pond into an artificial wetland.

CUSTER - The city of Custer received three Clean Water SRF loans totaling $888,000. The first loan of $430,000 financed the construction of a forcemain to convey treated effluent from the wastewater treatment facility to the municipal golf course, a storage reservoir at the golf course to store the effluent, and irrigation facilities at the golf course to utilize the effluent. The second loan of $182,000 partially financed sewer improvements which included collection lines and an interceptor line extension on the west edge of the city limits. The first and second loans were for 20 years at an interest rate of 3%. The third loan of $276,000 partially financed the construction of an additional wastewater stabilization pond. The third loan is for a 10-year term at an interest rate of 3%.

CUSTER-FALL RIVER WASTE MANAGEMENT DISTRICT - The Custer-Fall River Solid Waste Management District used $106,939 in Clean Water SRF funds for the construction of a landfill to serve residents of Custer and Fall River counties. The landfill also serves the Hot Springs Material Recovery Facility (MRF). The loan is for 20 years at 5% interest.

DEADWOOD - Deadwood received a $447,838 Clean Water SRF loan at a rate of 5% for 20 years. The loan was used to slip line approximately 2,700 feet of 24-inch diameter sewer interceptor line.

DELL RAPIDS - The city of Dell Rapids constructed sanitary and storm sewers with a $300,000 loan. The new lines replaced existing undersized sewers in conjunction with a street rehabilitation project. The term of the loan is 10 years at 3%.

ELK POINT - The city of Elk Point received a $458,000 loan with a term of 4% for 15 years. The city replaced two existing lift stations with a new lift station, forcemain and interceptor lines.

FORT PIERRE - The city of Fort Pierre used a $330,294 Clean Water SRF loan to construct a new sanitary sewer and two storm sewers. The sanitary sewer serves a residential area that was previously not connected to the city's system. The term of the loan is 3% for 10 years.

GARRETSON - The city of Garretson constructed new wastewater treatment stabilization ponds to make the existing sanitary system total retention. The city also made improvements to the existing wastewater facility using the $300,000, 4%, 15-year loan.

GROTON - The city of Groton used two Clean Water SRF loans in the amounts of $189,524 and $74,630 to build new interceptor lines, force mains and lift stations. The new sanitary systems were constructed in the east and northwest sections of the city. Both loans are at 3% for 10 years. The city received a third loan for the construction of a new three cell wastewater treatment facility, lift station, and forcemain. The $470,809 loan is for 20 years at 5.25%.
HARRISBURG - The city of Harrisburg received a Clean Water SRF loan for $507,277 to construct total retention stabilization ponds. The loan rate is 5% for 20 years.

HARTFORD (2000) - The city of Hartford received two loans totaling $1,194,804. Both loans are at 5% interest for 20 years. The first loan is to replace sanitary sewer mains within the city. The second loan is to replace the current wastewater treatment facility.

HOT SPRINGS - The city of Hot Springs received two loans totaling $1,126,930. The first loan of $196,930 was used to construct new sanitary sewers in an area of the city that had failing septic systems. This loan is at 3% interest and a 10-year term. The second loan of $930,000 was for closing the existing landfill site and constructing a transfer station and municipal solid waste composting facility. This loan is at 5% for a 20-year term.

HURON - The city of Huron received three Clean Water SRF loans. The first loan was used to partially fund improvements at the mechanical wastewater treatment facility and artificial wetlands treatment site. This loan totaled $1,656,000 at a rate of 3% for 20 years. The second loan was used to construct an extension to the storm sewer system to provide drainage in the rapidly developing northwest part of the city. The second loan totaled $701,997 at a rate of 3% for 10 years. The city of Huron used a third Clean Water SRF loan in the amount of $1,856,828 to expand the existing stabilization pond system and increase pumping capacity. The loan is at a rate of 5.25% for a 20-year term.

LAKE COCHRANE SANITARY DISTRICT - The Lake Cochrane Sanitary District constructed a wastewater collection and treatment system at Lake Cochrane. An $80,000 loan was made to the district to refinance a portion of the project. The loan was made for 20 years at a 3% rate.

LAKE MADISON SANITARY DISTRICT - The Lake Madison Sanitary District received a 4%, 15-year term Clean Water SRF loan for $330,000. The loan was used to refinance a Farmers Home Administration loan, which partially funded the installation of a wastewater collection and treatment system to serve Lake Madison.

LEAD (2000) - The city of Lead received three Clean Water SRF loans that were used for the separation of combined sanitary and storm sewers along with the rehabilitation of portions of the sanitary sewer system. The first loan was for $186,409 at a rate of 3% for 20 years. The second loan for $500,770 and the third loan for $375,298 are at 3% for 10 years. The city received its fourth loan to replace and separate combined sewers beneath South Dakota Highway 85 in conjunction with a South Dakota Department of Transportation highway project. This loan is for $239,200 at an interest rate of 4.5% for a 10-year term.

LEAD-DEADWOOD SANITARY DISTRICT - A sludge disposal vehicle and a sewer jet were purchased by the Lead-Deadwood Sanitary District with this loan. The loan was for $106,855 at a rate of 3% for 5 years.

LEMMON - The city of Lemmon received a $427,100 loan at a rate of 3% for 20 years to refinance a general obligation sewer bond issued in 1985. The bonds were issued to correct an infiltration/inflow problem.
LENNOX - The city of Lennox used a Clean Water SRF loan to construct and rehabilitate sanitary sewer interceptors. The loan is for $350,000 at 5.25% for 20 years. The city received a second loan for $583,735 at 5.25% for 20 years. The loan was used to add four aeration basins, two lift stations, and forcemains to the existing wastewater facility.

MADISON - The city of Madison received a Clean Water SRF loan to finance the construction of new collectors. The loan totaled $119,416 at 3% for 10 years.

McCOOK LAKE SANITARY DISTRICT - The McCook Lake Sanitary District received a Clean Water SRF loan for $641,935 to partially fund the upgrade and expansion of the wastewater treatment facility. The loan rate is 5% for 20 years.

MITCHELL - The city of Mitchell received a $1,543,405 loan to partially fund the construction of a storm drain diversion project. The 10-year loan is at 4.5%.

MOBRIDGE (2000) - The city of Mobridge received two Clean Water SRF loans to partially fund the upgrade and expansion of the wastewater treatment facility. The first loan totaled $1,500,000 at a rate of 3% for 20 years. The second loan of $158,000 was at a rate of 4% for 15 years. *The city received its third loan to install storm sewers in the northwest section of town. The loan is for $1,355,000 at 4.5% interest for a term of 10 years.*

NORTH SIOUX CITY - North Sioux City received a Clean Water SRF loan in the amount of $239,650 at a rate of 3% for 10 years. The loan was used to construct storm sewer and drainage improvements in the community. North Sioux City received its second Clean Water SRF loan to expand the storm sewer system and to provide drainage for a rapidly developing area. The $646,000 loan is at a rate of 5% for a 15-year term.

NORTHDALE SANITARY DISTRICT - The Northdale Sanitary District used a $256,380, 5%, 20-year loan to construct a new gravity sewer, lift station and forcemain. The new system connects the sanitary district to Rapid City's wastewater system.

PHILIP - The city of Philip financed the construction of sanitary and storm sewer improvements with a loan of $453,885. The loan is for 15 years at an interest rate of 5%. The city received a second Clean Water SRF loan for $321,127 to finance the construction of sanitary sewer, storm sewer, concrete curb and gutter, and replacement of forcemain. The 20-year loan is at 5.25%.

PICKEREL LAKE SANITARY DISTRICT - The Pickerel Lake Sanitary District received an $850,000 Clean Water SRF loan to finance the phase 1 construction of a new wastewater treatment facility and a sanitary sewer collection system. This loan is for 20 years at 5.25%. The district received a second loan of $670,000 at 5.25% for 20 years to complete phase II of the collection system construction.

PIERRE - The city of Pierre used a Clean Water SRF loan to completely finance the construction of an interceptor line near the airport and the addition of comminutors at the treatment plant. The airport interceptor re-routed wastewater, that had been going to an unpermitted lagoon near the airport, into the main sewer system. The loan also partially financed improvements to the sludge handling facilities at the treatment plant. The loan was for $433,976 at 4% for 15 years. The city received a second loan for $4,417,000 at 5.25% for 20 years. The loan will be used to finance the
phase I improvements to the wastewater treatment facility. In 1999, Pierre received a third loan in the amount of $5,391,260 to improve the wastewater treatment facility (phase II). The loan is for 20 years at a rate of 5%.

**PLATTE** - The city of Platte received a loan to renovate its sanitary sewer system. The $1,000,000 loan is for 20 years at a rate of 5%.

**POLLOCK** - Pollock received a Clean Water SRF loan to cover costs which exceeded the available EPA grant funding used to upgrade the wastewater treatment facility. The loan was for $151,619 at a rate of 3% for 10 years.

**RAPID CITY** - Rapid City has received four Clean Water SRF loans which have been used for construction activities at the wastewater treatment facility, rehabilitation and extension of the sanitary sewer system, construction of stormwater facilities and mitigation of approximately four acres of wetlands at the city's Material Recovery Facility (MRF). The first three loans totaled $4,141,167. The fourth loan for the MRF was for $1,214,861.39. All Rapid City loans are at a rate of 4% for 15 years.

**RAPID VALLEY SANITARY DISTRICT** - The Rapid Valley Sanitary District received two Clean Water SRF loans totaling $978,583. These loans were used for the rehabilitation and extension of the existing sanitary sewer system and carried terms of 3% for 20 years and 4% for 15 years. The sanitary district received a third loan for continued rehabilitation of the sanitary sewer system. The $630,000 loan is at a rate of 5.25% for 20 years.

**RICHMOND LAKE SANITARY DISTRICT** - The Richmond Lake Sanitary District received a $414,000 Clean Water SRF loan at an interest rate of 5.25% and a term of 20 years. The loan will be used to partially finance the construction of a new sanitary sewer system and stabilization pond system for residences around Richmond Lake. The district received a second loan of $191,500 at 5.25% for 20 years to complete phase II of the collection system construction.

**ROSCOE** - The city of Roscoe received a Clean Water SRF loan for $358,408 to expand their wastewater treatment facility, rehabilitate an interceptor sewer and construct a new collection sewer. The loan was for 20 years at an interest rate of 5.25%.

**SIOUX FALLS (2000)** - The city of Sioux Falls has received 14 Clean Water SRF loans totaling $25,968,251.36. Sioux Falls has used the loans on a variety of projects. These projects include the construction of new interceptor lines and lift stations, rehabilitation of the sanitary sewers and lift stations, purchase of sludge handling equipment, infiltration/inflow correction, improvement of stormwater drainage, flow equalization basin construction, and sludge handling improvements. The first loan is at 3% for 20 years. Loans 2 through 10 are at 3% for 10 years. Loans 11 through 14 are at 4.5% for 10 years.

**SOUTHERN MISSOURI WASTE MANAGEMENT DISTRICT** - The Southern Missouri Recycling and Waste Management District received a $700,000 Clean Water SRF loan for the construction of a regional landfill near Lake Andes. The term of the loan is 20 years at 5%. The construction of the landfill has been completed and the facility is operational. In federal fiscal year 1998, Southern Missouri Waste Management District received a grant from HUD in the amount
of $400,000. This grant was used to pay against the principal portion of Southern Missouri’s Clean Water SRF loan.

SPEARFISH - The city of Spearfish used a $1,955,999.83 Clean Water SRF loan to fund the expansion of the wastewater treatment facility. The loan rate is 4% for 15 years.

STURGIS (2000) - The city of Sturgis has received four loans totaling $3,975,630. The first loan for $502,000 financed the construction of three sewer interceptor lines, a sewer collection line, and a portion of the Sturgis wastewater treatment facility upgrade. The second loan for $936,250 financed the majority of the treatment facility upgrade. The first two loans are at an interest rate of 5% for 20 years. The city of Sturgis received its third loan of $437,380 to repair damage and replace riprap in the second and third cells of the wastewater treatment facility and to finance engineering planning studies. The third loan is at 5.25% interest for a term of 20 years. The fourth loan for $2,100,000 is to expand the city’s treated effluent irrigation system. This loan is at 5% interest for a term of 20 years.

TEA - The city of Tea has received four loans totaling $1,783,813. Its first two loans were for the construction of a storm drainage system. The loans are $600,000 each, at an interest rate of 4% for 15 years. The third loan of $208,813 funded the construction of a sanitary sewer and lift station. The 20-year loan is at an interest rate of 5.25%. The city received a fourth loan of $375,000 at 5% for 15 years. The fourth loan was used to reconfigure the existing lagoon system and construct a new primary cell and two secondary cells in order to provide sufficient treatment capacity.

VALLEY SPRINGS - The city of Valley Springs received a $430,000 loan to fund the expansion and upgrade of the existing wastewater treatment facility. The 20-year loan is at 5.25% interest.

VERMILLION - Vermillion has received three loans totaling $852,002. The first loan for $125,000 was used to reconstruct a sanitary sewer interceptor that was in need of replacement. The second loan for $370,471 was for construction of approximately 6,200 feet of storm sewer pipe and associated appurtenances in three separate areas of Vermillion. The third loan of $356,531 was for the construction of a second trench at the city's landfill and to purchase a scraper. The first loan rate was 3% for 20 years, the second loan was 4% for 15 years, and the third loan was 4.5% for 10 years.

WALL - The city of Wall received a Clean Water SRF loan in the amount of $1,146,000 for its municipal wastewater improvement project. The loan rate is 5% for 20 years. The project consists of the construction of a seven-mile transfer line to new total retention ponds.

WARNER - The town of Warner used a $101,152 Clean Water SRF loan at a rate of 4.5% and a term of 10 years. The project included the construction of a storm sewer collection and disposal system to improve storm drainage within the community.

WATERTOWN - The city of Watertown received two Clean Water SRF loans totaling $6,000,000 for the upgrade and expansion of the city’s wastewater treatment facility. Both loans are at a rate of 4% for 15 years. The city was awarded its third Clean Water SRF loan in the amount of $2,583,734 to rehabilitate portions of the sanitary sewer collection system. The city used $932,830 of its fourth loan for engineering costs associated with the final upgrade of the
wastewater treatment facility. The city repaid this loan in full after receiving a large federal grant. The third and fourth loans were at 5.25% for 20 years.

**WAUBAY** - The city of Waubay received a Clean Water SRF loan in the amount of $81,454 to construct a wastewater collection system within the city limits on the south shore of Blue Dog Lake. This area was previously served by septic tanks. The loan was for 20 years at 5%.

**WEBSTER** - The city of Webster used a $345,394 Clean Water SRF loan to reconstruct a sanitary sewer line on Main Street. The loan is for 10 years at 4.5%.

**WHITEWOOD (2000)** - Whitewood has received two loans totaling $455,801. The first loan constructed a new mechanical wastewater treatment facility in conjunction with the existing stabilization pond system. The city partially funded the project with a Clean Water SRF loan of $180,801 at 4% for 15 years. The city’s second loan was for $275,000 at an interest rate of 5% for 20 years. The second loan is to expand the wastewater collection system.

**WORTHING** - The town of Worthing received a $227,645 Clean Water SRF loan at a 5.25% interest rate and a term of 20 years. The loan is being used to expand and upgrade the existing stabilization pond treatment facility.

**YANKTON** - The city of Yankton received two loans totaling $7,125,000. Both loans will be used to upgrade and expand the existing wastewater treatment facility. The term of the first loan was 5.25% for 20 years. The second loan utilized the leveraged program bonds with a term of 6% for 20 years.

ADDENDUM I

FEDERAL FISCAL YEAR 2001

INTENDED USE PLAN
I. INTRODUCTION

The state of South Dakota proposes to adopt the following Intended Use Plan (IUP) for federal fiscal year 2001 as required under Section 606(c) of the Clean Water Act.

The primary purpose of the IUP is to identify the proposed annual intended use of the amounts available to the Clean Water State Revolving Fund (SRF). The IUP has been reviewed by the public and reflects the results of such review.

The IUP includes the following:

1. List of projects and activities;
2. Goals and objectives;
3. Information on the activities to be supported;
4. Assurances and specific proposals; and
5. Criteria and method for distribution of funds.

II. LIST OF PROJECTS

The IUP identifies potential wastewater projects and nonpoint source management activities. The list of potential wastewater projects incorporates a priority ranking system to comply with Project Priority List requirements as per federal regulations. To be eligible for Clean Water SRF funding the project/activity must be identified and included as a potential project in the IUP. Attachment I is the list of wastewater projects that have been identified from the State Water Plan as potential borrowers of Clean Water SRF funds during federal fiscal year 2001. The state may also fund nonpoint source management projects/activities from Attachment II as they apply, subject to the Clean Water SRF rules adopted by the Board of Water and Natural Resources (BWR). According to the administrative rules, the BWR may set aside a portion of the 2001 Clean Water SRF allocation for nonpoint source management projects/activities.

The Clean Water SRF may be used for the following purposes:

1. Low-interest loans for secondary or more stringent treatment of any cost-effective alternatives, new interceptors and appurtenances, infiltration/inflow correction, new collectors, sewer system rehabilitation, expansion and correction of combined sewer overflows, and construction of new storm sewers. The low-interest loans can be made for up to 100 percent of the total project cost;

2. Refinancing of existing debt obligations for municipal wastewater facilities if the debt was incurred and construction initiated after March 7, 1985; or

3. Nonpoint source implementation projects/programs.

A determination of which projects are selected from the above mentioned lists, the amount of assistance, and the financing terms and conditions will be made by the BWR during federal fiscal year 2001.
III. GOALS AND OBJECTIVES

Long-term Goals and Objectives:

The long-term goals of the State Water Pollution Control Revolving Fund are to fully capitalize the Clean Water SRF, maintain or restore and enhance the chemical, physical and biological integrity of the state’s waters for the benefit of the overall environment, protect public health, and promote economic well-being.

Objectives:

1. Maintain a permanent, self-sustaining Clean Water SRF program that will serve in perpetuity as a financing source for wastewater treatment works projects and water pollution control activities including nonpoint source and groundwater protection projects; and

2. Fulfill the requirements of pertinent federal, state, and local laws and regulations governing water pollution control activities while providing the state and local project sponsors with maximum flexibility and decision making authority regarding such activities.

Short-term Goal and Objectives:

The short-term goal of the Clean Water SRF is to fully capitalize the fund.

Objectives:

1. Ensure the technical integrity of Clean Water SRF projects through the review of planning, design plans and specifications, and construction activities;

2. Ensure compliance with all pertinent federal, state, and local water pollution control laws and regulations; and

3. Obtain maximum capitalization of the funds for the state in the shortest time possible.

IV. INFORMATION ON THE ACTIVITIES TO BE SUPPORTED

The primary type of assistance to be provided by the Clean Water SRF is loans including refinancing of existing debts, where eligible. On a more limited basis, the state may guarantee or buy insurance for local debt obligations or leverage bond issues. The state plans on reserving four percent of the capitalization grant amount for administrative expenses.

From the Clean Water SRF these types of assistance will be provided to municipalities, sanitary districts, counties, or other units of government for publicly owned wastewater treatment facilities, storm sewers, and nonpoint source pollution control programs in conjunction with the Clean Water SRF rules adopted by the BWNR.

V. ASSURANCE AND SPECIFIC PROPOSALS

The state has assured compliance with the following sections of the law in the State/EPA Operating Agreement - XI Certification Procedures. In addition, the state has developed specific proposals on implementation of those assurances in the rules promulgated by the BWNR.

Section 602(a) - Environmental Reviews - The state certifies that it will conduct environmental reviews of each project on Attachment I receiving assistance from the Clean Water SRF. The state will follow EPA approved National Environmental Policy Act (NEPA) procedures in conjunction with such environmental reviews.

Section 602(b)(3) - Binding Commitments - The state certifies that it will enter into binding commitments equal to at least 120 percent of each quarterly grant payment within one year after receipt.

Section 602(b)(4) - Timely Expenditures of Funds - The state is committed to obligate Clean Water SRF moneys to eligible applicants as quickly and efficiently as possible to facilitate the financing of eligible projects and to initiate construction with a minimum of delay.

Section 602(b)(5) - First Use Enforceable Requirements - The staff certifies that all major and minor wastewater treatment facilities identified as part of the National Municipal Policy (NMP) universe are:

1. in compliance, or

2. have received funding through various state and federal assistance programs and constructed a facility designed to produce an effluent capable
of meeting the appropriate permit limits and achieve compliance with its discharge permit, or

3. have upgraded existing facilities or constructed new facilities through its own means to achieve compliance with its discharge permit.

Those projects identified as part of the NMP universe were given priority for Clean Water SRF assistance.

Section 602(b)(6) - Compliance with Title II Requirements - The state certifies that it will comply as applicable.

VI. CRITERIA AND METHOD FOR DISTRIBUTION OF FUNDS

The Clean Water SRF funds are being distributed using the following criteria:

1. the availability of funds in the Clean Water SRF program;
2. the applicant’s need;
3. violation of health and safety standards; and
4. the applicant’s ability to repay.

The methods and criteria used are designed to provide the maximum flexibility and assistance that is affordable to the borrower while providing for the long-term viability of the fund.

Interest rates are reviewed annually and are set to be competitive with other funding agencies and to keep pace with inflation. The rate and term of each loan is at the discretion of the project sponsor provided the proposed repayment source produces sufficient coverage. For fiscal year 2001, the SRF program will provide loans at the following interest rates: 4.50 percent for 10-year loans, 4.75 percent for 15-year loans, and 5.00 percent for 20-year loans. Included in the loan rate is an administrative surcharge of 1.00 percent. For example, a 10-year note consists of 3.50 percent interest and 1.00 percent administrative surcharge. The primary purpose of the surcharge is to provide a pool of funds to be used for administrative purposes after the state ceases to receive capitalization grants. The administrative surcharge is also available for other purposes, as determined eligible by EPA and at the discretion of the BWNR and department.

To encourage more proactive planning within small communities, the department is proposing to use administrative surcharge income for planning grants. It is intended that grants will be available for communities having a population of 1000 or less. The planning grant will reimburse 80 percent of the cost of the study, with the maximum grant amount for any project being $6,500. The department anticipates using up to $50,000 of administrative surcharge income in FY 2001 to initiate the program. Future allocations of administrative surcharge will depend on program demand.

The department is also exploring the option of using the administrative surcharge to match future capitalization grants.
**Public Review and Comment** - On May 25, 1988, a public hearing was held to review the initial Clean Water SRF rules and to receive comments. The BWNR approved the rules following the hearing. Revisions to the Clean Water SRF rules have been made periodically to reflect the needs of the program. The most recent revisions were made at a public meeting in December of 1998.

A formal public hearing was held for the South Dakota FY 2001 Clean Water Clean Water SRF IUP on November 8, 2000, and acted upon at that time. Copies of the document were mailed to interested parties prior to the public hearing and were available to the public on the department’s web site.
